CORPORATE PROFILE

Listed on SGX Catalist (previously known as the SGX-SESDAQ) on 23 December 2004 and upgraded to the Mainboard on 18 June 2009, Envictus International Holdings Limited ("Envictus" or "the Group"), is an established Food and Beverage ("F&B") Group. The Group has an established portfolio of businesses and brands operating under its key business divisions.

Founded in 1997, the Group started as a manufacturer and distributor of sweetened condensed milk and evaporated milk and in the years following its listing, has evolved into a diversified F&B player vide several acquisitions. In June 2014, the Group unlocked shareholders' value in the business through the disposal of its investment in the dairies and packaging businesses and the relevant intellectual property to Asahi Group Holdings Southeast Asia Pte. Ltd..

The Group's current business divisions comprise Trading and Frozen Food, Food Services (Texas Chicken), Nutrition as well as Food Processing. The Food Processing Division's business segments are bakery, butchery, beverages and contract packing for dairy and juice-based drinks. Envictus' operating facilities are located in Malaysia and New Zealand, with plans for a number of its existing operations in Malaysia to be centralised in the Selangor Halal Hub, Pulau Indah, following the acquisition of eight plots of land.

arbles

Apart from Malaysia, the Group's products can be found around the region including China, Japan, Taiwan, Thailand, Singapore, Indonesia, Hong Kong, UAE, Papua New Guinea, Pacific Island, Australia and New Zealand. The Group's products are traded under various brand names like Gourmessa, Polygold, Daily Champ, Hearty Bake, Family, Daily Fresh, Horleys, Sculpt, Replace, Pro-Fit, Air Champ and Power Champ.

Helmed by an experienced management team of industry veterans who possess a wide range of expertise in strategic planning, business development, operational and production skills, the Group is well-positioned to tap on its established standing in the F&B industry to further enhance its strong brand names.

CORPORATE PROFILE

TRADING AND FROZEN FOOD DIVISION

With over 50 years of track record, Pok Brothers Sdn Bhd ("Pok Brothers") is today a household name and is one of Malaysia's leading frozen food and premium food wholesaler. Pok Brothers started as a general store business in Petaling Jaya in 1963 and from this humble beginning, it has successfully transformed itself into one of the leading frozen food companies in Malaysia.

As a premium food wholesaler, Pok Brothers imports and distributes food products, both in raw and processed form, with particular emphasis on servicing the hospitality and consumer-based food industry.

Its products include frozen/chilled beef and lamb cut, dairy products, seafood, condiments, vegetables, bakery products and cold cuts among many others. Its major clients include major 5-star hotels, airlines, cruise ships, hyper/ supermarkets, bakeries, butcheries, fast-food chains, grocery stores, food processors and other wholesalers. Pok Brothers is the sole distributor of major imported brands like Lamb-Weston, Emmi, Devondale, Dr.Oetker, Pritchitt and other imported brands as well. Pok Brothers is also an appointed importer and distributor of proprietary goods for several American restaurant chains in Malaysia.

Most of Pok Brothers' supplies are sourced internationally, in particular, from the United States, Europe, Australia, New Zealand and Brazil.

It operates out of Glenmarie, Shah Alam in Selangor and has branches in Penang, Johor, Pahang and Langkawi to cover the length and breadth of Peninsular Malaysia. All the facilities have cold room facilities.

CORPORATE PROFILE

FOOD SERVICES DIVISION

On 10 July 2012, the Group signed an exclusive 10-year International Multiple Unit Franchise Agreement with USbased Cajun Global LLC for exclusive rights to develop and operate Texas Chicken restaurants in Malaysia and Brunei from 2013 to 2022. This marked the Group's maiden foray into the fast food segment. These restaurants serve American-styled, big juicy full-flavoured fried chicken, french fries, honey butter biscuits, mashed potatoes, coleslaw, burgers and sundae, to name a few.

Evolve Concept Mall	5 November

This partnership expanded Envictus' portfolio as well as enabled the Group to tap on synergistic opportunities in its existing Trading and Frozen Food Division and beverage business. In addition, this downstream expansion is part of Envictus' growth strategy to increase the presence of its identity and brand in key markets such as Malaysia and the neighbouring countries in Asia.

Texas Chicken sets itself apart from the competition, given the substantial attention paid to ingredient sourcing and good quality control to ensure freshness of food at all times. All spices and seasoning for Texas Chicken's great tasting chicken are imported directly from USA for consistency in flavour to ensure that guests who visit Texas Chicken restaurants in Malaysia enjoy the same great taste created 60 years ago by the founder – Mr. George W. Church, Sr. The attention to detail is seen right down to the choice of the key ingredient – chicken freshly procured from local farms – cooked using an exclusive technique for a juicy and crunchy bite. In addition, Texas Chicken's signature 8-piece cut ensures that customers enjoy bigger chicken portions at greater value.

Since the opening of the first flagship outlet at Aeon Bukit Tinggi Shopping Centre, located in Bandar Bukit Tinggi township, Klang on 31 January 2013, Envictus has leveraged on the robust demand for the Texas Chicken restaurant concept by growing its presence at a good pace to reach a total of 22 outlets, largely within the Klang Valley area in Malaysia. During the financial year, the Group opened a total of eight outlets. Subsequent to the financial year end, another two new Texas Chicken outlets were opened.

Information as at 8 December 2015

CORPORATE PROFILE

NUTRITION DIVISION

Naturalac Nutrition Limited ("NNL"), a marketer of branded sports nutrition and weight management food products to athletes and mass consumer markets trades under the Horleys[™] brand name and other proprietary brands such as Sculpt[™] (a weight management product tailored for women), Replace[™] (an isotonic sports drink in both powder and carbonated form) and Pro-Fit[™] (a high protein ready-to-drink beverage). The key benefits of these products are in the areas of weight management (both muscle mass gain and weight loss through satiety control), energy delivery and hydration.

NNL became a "virtual" company in 2002 in order to enable its management to focus its efforts on key areas of marketing and product development. As such, this marketing company outsources many of its key functions including manufacturing, distribution and selling to third party providers, both in New Zealand and Australia. This lean business model, akin to popular sports apparel brands, has provided NNL with the needed flexibility and speed in delivering high quality products to its customers, while focusing and leveraging on its key competency in product development, advertising and promotion and customer service. This model has

reduced the need for substantial resources, both financial and non-financial, otherwise required for setting up of processing and production centres.

By concentrating on its core competencies, NNL has been able to significantly shorten the time required for product development, from concept to market. This ability is considered an edge over its competitors. In New Zealand, NNL's products are primarily distributed through the route channels (gyms, health food shops, specialty stores and specialty nutrition shops) and retail channels (supermarkets, oil and convenience retail outlets) whilst its Australian sales are made predominantly through the route channels.

FOOD PROCESSING DIVISION

BAKERY

De-luxe Food Services Sdn Bhd, which is located in Meru, Klang, manufactures speciality European bread for supply to hotels, restaurants, cafes and supermarkets. It also supplies its products to Subway Malaysia.

In addition to the frozen bakery range produced by De-luxe Food Services Sdn Bhd, the Group also produces and distributes fresh breads and buns through the Family Group, consisting of Family Bakery Sdn Bhd and Daily Fresh Bakery Sdn Bhd.

Family Group's manufacturing facility is located in Meru, Klang and produces fresh breads and buns in Malaysia under the brand name of Daily Fresh and Family. Their products are distributed nationwide to hypermarkets, supermarkets, factory canteens, petrol marts, grocery stores and convenience shops.

BUTCHERY

Gourmessa Sdn Bhd which is located in Glenmarie, Shah Alam, manufactures and processes cold cuts, sausages, portion control meat and smoked salmon for distribution to supermarkets, hotels and restaurants. Its Gourmessa brand of quality cold cuts and sausages are well distributed and displayed in most supermarkets and hypermarket chains across Malaysia.

BEVERAGES

Polygold Beverages Sdn Bhd is a manufacturer of canned beverages based in Seremban, Negeri Sembilan. Its plant produces both carbonated and non-carbonated drinks under the brand name of Polygold. In addition, it also produces Air Champ energy drink, Power Champ isotonic sports drink and Daily Champ soya milk drink.

CONTRACT PACKING

The Group entered into the ready-to-drink segment vide a joint venture in Envictus Dairies NZ Limited to establish New Zealand's first state-of-the-art, UHT Aseptic PET bottling line for dairy, juice and water products with the official opening of its plant on 1 September 2011. The plant, located at Whakatu Industrial Park, near Hastings, is ideally-suited for bottling operations with its existing resources, including trade waste discharge rights and tanker access.

The plant currently produces UHT milk for the China and Taiwan markets, flavoured milk for Australasia, pet milk for Japan and fruit juice for local and Asian markets. It has also developed and launched its ready-to-drink sports nutrition beverage including isotonic drinks, protein drinks, weight loss water and pre-workout drinks. Most recently, the plant has expanded into non-dairy alternatives such as coconut and almond milk.

TRADING AND FROZEN FOOD DIVISION

CORPORATE MILESTONE

1997 JANUARY

Clarity Valley Sdn Bhd was used as a joint venture ("JV") vehicle between the Tan Brothers (Motif Etika Sdn Bhd) and Messrs Mah Weng Choong, Khor Sin Kok and others (Jasnida Sdn Bhd) to engage in the manufacturing and distribution of milk products in Malaysia. Subsequently, Clarity Valley Sdn Bhd changed its name to Etika Dairies Sdn Bhd.

<u>1999</u> FEBRUARY

Etika Dairies Sdn Bhd completed installation of its maiden modern and fully automated sweetened condensed milk production line in our production factory in Meru, Klang, Selangor, Malaysia.

MARCH

Commercial launch of sweetened condensed milk under the Dairy Champ brand throughout Malaysia.

DECEMBER

Commencement of export of sweetened condensed milk to Malawi.

2003 DECEMBER

Etika International Holdings Limited (EIHL) was incorporated in Singapore on 23 December 2003 as a private limited company.

2004 NOVEMBER

Pursuant to a Restructuring Exercise, EIHL became the holding company of Etika Dairies Sdn Bhd on 8 November 2004.

DECEMBER

EIHL was converted into a public limited company on 10 December 2004. Subsequently, it was listed on SGX-SESDAQ (now known as SGX Catalist) on 23 December 2004.

2006 FEBRUARY

1st acquisition pursuant to our listing, we acquired Pok Brothers Group, one of Malaysia's leading frozen food and premium food wholesaler, on 8 February 2006 vide our wholly-owned subsidiary, Etika Foods (M) Sdn Bhd for a consideration of approximately RM21.5 million.

2007 JANUARY

The Group proposed a renounceable non-underwritten rights issue of up to 68,652,060 new ordinary shares in the capital of the company at an issue price of \$\$0.095 for each rights share with up to 17,163,016 free detachable warrants.

FEBRUARY

Completed acquisition of Naturalac Nutrition Limited ("NNL") based in New Zealand vide our wholly-owned subsidiary Etika (NZ) Limited on 8 February 2007 for a consideration of NZ\$7.8 million.

<u>2007</u> APRIL

The percentage of the total voting shares held by the Company in YGRL remained unchanged at 11.43%.

On 26 November 2015, the Company proposed a consolidation of every five existing issued ordinary shares in the capital of the Company into one ordinary share in the capital of the Company for compliance with minimum trading price of S\$0.20 as a continuing listing requirement for issuers listed on the Mainboard of SGX-ST.

MESSAGE FROM THE CHAIRMAN

Dear Valued Shareholders,

On behalf of the Board of Directors of Envictus International Holdings Limited, I am pleased to present our 2015 Annual Report incorporating the financial statements of the Group for the financial year ended 30 September 2015 ("FY2015").

FY2015 has been a year of consolidation for greater business focus and operational efficiencies, after we successfully divested our Dairies and Packaging businesses the year before.

The Group is on a firm footing as we deepen our market standing as an established F&B group that is committed to delivering quality products to our loyal consumers.

REVIEW ON FINANCIAL RESULTS

The Group achieved a 6.7% growth in revenue to RM327.4 million in FY2015 as compared to RM306.8 million recorded in the previous financial year ended 30 September 2014. The Group's revenue increase of RM20.6 million was largely contributed by the Food Services Division as a result of its aggressive launch of eight additional Texas Chicken outlets during the year under review.

The Group enjoyed good market acceptance for Texas Chicken due to its products' quality, value and brand. With these attributes and the revenue brought in by the additional outlets opened during the financial year, revenue for the Food Services Division rose by RM24.0 million to RM44.4 million in FY2015 over the previous year.

The Trading and Frozen Food Division recorded a marginal increase of RM2.5 million to RM169.3 million, notwithstanding some impact following the implementation of the GST in Malaysia and the depreciation of the Ringgit against the US Dollar. The Food Processing Division's performance also improved, recording a RM5.8 million increase in revenue to RM74.7 million, driven mainly by the beverages, contract packing and butchery businesses. However, the Nutrition Division experienced a RM7.3 million reduction in topline to RM38.7 million due to unattractive trading terms, keen competition and a slowdown in the Australia market.

MESSAGE FROM THE CHAIRMAN

The Group achieved a 6.7% growth in revenue to RM327.4 million in FY2015 as compared to RM306.8 million recorded in the previous financial year ended 30 September 2014.

The Group recorded profit before income tax of RM3.7 million. However, the bottomline was affected by an income tax expense of RM7.2 million largely contributed by a RM3.2 million reversal of deferred tax assets and the balance being corporate tax paid and payable by the profitable subsidiaries. As a result, an overall loss after tax from continuing operations of RM3.6 million was registered in FY2015.

Balance sheet remained robust, with cash and bank balances of RM96.5 million and shareholders' equity of RM373.5 million as at 30 September 2015.

CONSOLIDATION OF BUSINESS OPERATIONS

Since the divestment of the Dairies and Packaging businesses, the Group has been actively reshaping its business models and consolidating its resources. One of the initiatives undertaken was the restructuring of the various business divisions into well-defined portfolio. One such example is the separation between the bakery sub-division and the butchery sub-division where we provided dedicated resources to manage the respective businesses in a more focused approach. The Group now operates through business divisions comprising the Trading and Frozen Food Division which is our largest revenue contributor, followed by Food Processing, Food Services and the Nutrition divisions respectively. RM 20.6 MILLION INCREASE IN REVENUE WAS LARGELY CONTRIBUTED BY THE FOOD SERVICES DIVISION

FUTURE OUTLOOK AND PROSPECTS

The Group made good progress in consolidating the operations and strengthening of its foundation to position itself well for future growth. As an established F&B industry player, the Group is wellpoised to navigate through challenges that come its way and stay resilient through a sustainable business model.

In line with the re-organisation plan, the Group acquired eight plots of leasehold land spanning a total of 35.6 acres located in the Selangor Halal Hub Pulau Indah ("SHHP"). SHHP is a designated area set up by the Malaysian government as part of its plan to develop the country into an international Halal Hub. Strategically, this development offers vast benefits and this bodes well with the Group's objective to centralise its operating facilities as most of its food products are Halal certified. Apart from potentially qualifying for special tax incentive, the centralisation would allow the Group to achieve economies of scale and optimisation of costs in areas such as procurement and logistics. Collectively, we are optimistic that this will allow us to capitalise on the growth potential of the increasing global demand for Halal products.

MESSAGE FROM THE CHAIRMAN

Texas Chicken

The Group also recently acquired a leasehold office building with a single-storey warehouse located in Petaling Jaya. The property will be used as the head office for the Food Services Division as well as the corporate office of its Malaysian subsidiaries. The available office space will fulfill the immediate requirement of the Food Services Division, the tenancy of which is expiring in December 2015. In addition, it will also allow the Group to cater to the future office space requirement arising from the expanding employee headcount required to support the growing business.

On 5 November 2015, we acquired an 11.43% stake for a total consideration of S\$10.5 million in Yamada Green Resources Limited ("Yamada"), a company involved in manufacturing of agricultural products and listed on the Mainboard of the Singapore Exchange Securities Trading Limited. We envision this strategic investment to broaden our source of income through dividend to be declared by Yamada in the future.

On 11 November 2015, we unlocked the value of our property in Indonesia through a conditional sale and purchase agreement to dispose a piece of land with a factory building for a cash consideration of Rp50.0 billion (approximately RM16.0 million). The transaction will result in an estimated gain of Rp28.7 billion (approximately RM9.2 million). This property, which had been dormant for some time, was previously utilised by our noodles manufacturing operations that ceased operations in 2014. Through this initiative, we can potentially redeploy the net proceeds to our core operations that are valueaccretive to shareholders besides eliminating the need to continue maintaining the property.

PROPOSED SHARE CONSOLIDATION

We are proposing to undertake a share consolidation of every five existing issued shares into one consolidated share ("Proposed Share Consolidation") to comply with the minimum trading price (MTP) of S\$0.20. This is a continuing listing requirement for issuers listed on the Mainboard of the Singapore Exchange Securities Trading Limited. The Proposed Share Consolidation will be subject to shareholders' approval at the forthcoming Annual General Meeting. The Group also recently acquired a leasehold office building with a single-storey warehouse located in Petaling Jaya.

I would like to extend our appreciation to all loyal shareholders, customers, suppliers, business partners for their faith and support for Envictus.

I am also grateful for the wise counsel and contributions extended by our esteemed board members.

At this point, I would also like to thank all management and staff who have worked tirelessly as we restructured our business post-divestment. They have shown resilience in facing challenges that came our way and continue to contribute to the growth of Envictus as an established F&B group.

In closing, having taken steps to strengthen our foundation, we are confident that we are well poised for our future growth. We are optimistic about our growth prospects and are committed to creating shareholder value and rewarding our loyal investors for years to come.

DATO' JAYA J B TAN Chairman

FOOD SERVICES DIVISION

QU

Financial year ended 30 September 2015 was a year of consolidation and optimisation of the Group's operations following a successful divestment to unlock shareholders' value in FY2014.

The Group's core business segments are as follows:

- a) Trading and Frozen Food Division;
- b) Food Services Division Texas Chicken;
- c) Nutrition Division; and
- d) Food Processing Division comprising:
 - bakery;
 - butchery;
 - beverages; and
 - contract packing for dairy and juice-based drinks.

Envictus remains focused on optimising existing operations, seeking growth opportunities to strategically invest in and exploring potential areas to further unlock shareholders' value.

CONSOLIDATED INCOME STATEMENT

The Group recorded revenue of RM327.4 million, an increase of RM20.6 million or 6.7%, compared to the preceding financial year's revenue of RM306.8 million. Excluding revenue of RM4.2 million of the noodles business, which ceased operations in September 2014, the Group's revenue would effectively have increased by RM24.8 million. The overall increase in revenue was contributed mainly by the Food Services Division.

The Trading and Frozen Food Division recorded a slight increase of RM2.5 million, from RM166.8 million to RM169.3 million. The division was impacted mainly by the adverse effects of the implementation of GST in Malaysia and the depreciation of the Ringgit against the US Dollar in the second half of FY2015. The Texas Chicken operations, under the Food Services Division, registered a commendable rise in revenue, from RM20.4 million to RM44.4 million. This represented an increase of RM24.0 million or 117.6% over the previous corresponding financial year. The significant increase was attributed to its aggressive opening of eight additional outlets during the current financial year and the market's acceptance of its products' quality, value and brand. The Nutrition Division continued to be affected by unattractive trading terms and the influx of competitively priced US products. The impact was compounded by a slowdown in the Australia market due to the anaemic growth of the global economy. This led to a reduction in revenue of the Nutrition Division by RM7.3 million, from RM46.0 million to RM38.7 million. The revenue of the Food Processing Division increased by about 8.4% due to better performance of the beverages, contract packing and butchery businesses which registered a collective increase of RM12.2 million. The increase was offset by the poor performance of the bakery business which contributed a lower revenue of RM6.4 million due to poor market sentiment resulting from the effects of Malaysia's implementation of GST in April 2015.

The Group's gross profit margin improved significantly from 19.1% to 27.0% due mainly to the vast improvement in sales. Performance was also boosted by a slight reduction in the food costs of Texas Chicken, the better sales performance of the contract packing business and the exclusion of the loss making noodles business in FY2015. The noodles business ceased operations in September 2014.

With the surplus funds available from the proceeds (net of dividend paid) through the sale of the dairies and packaging businesses to Asahi in the previous financial year, the Group generated total income of RM6.4 million comprising dividend income, interest income and gain on disposal from held-for-trading investments. This was achieved amidst the global currency volatility and economic slowdown, particularly in China. Together with the foreign exchange gain of RM9.4 million and other gains, these substantially made up other income of RM21.9 million earned for the financial year. In the previous financial year, other operating income of RM38.5 million was largely contributed by a RM34.2 million one-time gain on disposal of relevant intellectual property to Asahi Group Holdings Southeast Asia Pte. Ltd..

Excluding the prior financial year's impairments of plant and equipment and intangible assets amounting to RM44.7 million, operating expenses increased from RM99.3 million to RM104.7 million or 5.4%. The increase is mainly due to higher selling and marketing expenses of RM4.5 million, warehouse and distribution expenses of RM2.5 million, and administrative expenses of RM0.6 million. Other operating expenses comprise primarily of fair value loss arising from held-for-trading investments of RM4.6 million. The Group's gross profit margin improved significantly from 19.1% to 27.0% due mainly to the vast improvement in sales.

RM 5.8 million FOOD PROCESSING DIVISION RECORDED A REVENUE GROWTH

RM 2.5 million TRADING AND FROZEN FOOD DIVISION RECORDED A REVENUE GROWTH

Excluding the costs incurred by the noodles business which has since ceased, the increase in administrative expenses of RM2.2 million or 8.3%, and selling and marketing expenses of RM5.6 million or 14.7%, were mainly due to additional staff costs, rental of outlets, royalty fees and utility charges incurred for the expansion of the Food Services Division. Warehouse and distribution expenses were up by RM2.5 million or 11.2%, which were mainly attributed to the increase in staff costs, warehouse rental and utility charges incurred for additional warehouses.

Finance costs declined by RM6.5 million or 78.5% primarily due to the settlement of major borrowings in the previous financial year.

The Group incurred tax expense of RM7.2 million in FY2015 largely due to the reversal of deferred tax assets of RM3.2 million by a New Zealand subsidiary as a result of continuing losses and an increase in profit generated by certain subsidiaries for which group relief was not available. Comparatively, the Group incurred higher income tax expense in FY2014 mainly due to additional tax charges arising from the disposal of relevant intellectual property of RM5.2 million as well as a write-off of deferred tax asset of RM6.6 million associated with the cessation of the noodles business operations.

Profit before tax for the current financial year was RM3.7 million as compared to a loss before tax of RM44.7 million (excluding the one-off exceptional gain on the disposal of relevant intellectual property and the provision for impairment), an improvement of RM48.4 million. This was mainly attributable to the Group's improved profit margin, gains from investments and foreign exchange, and a reduction in finance costs.

Overall, the Group recorded a loss after tax of RM3.6 million, an improvement from a loss after tax of RM72.4 million reported in FY2014.

STATEMENTS OF FINANCIAL POSITION

Under non-current assets, property, plant and equipment (net of depreciation charges) increased by RM6.3 million. This resulted mainly from setup costs incurred on new Texas Chicken outlets. Deposits paid for the acquisition of land and building of RM36.4 million also resulted in an increase in non-current assets.

These increases were partially offset by the decrease of deferred tax assets of RM2.7 million mainly due to the reversal of deferred tax assets of a subsidiary. The prepaid lease payment for land and building of RM4.4 million have been reclassified to non-current asset held for sale under current asset due to its disposal subsequent to the financial year end.

Other receivables declined by RM56.7 million principally due to proceeds received from the adjustment amount to sales consideration in relation to the disposal of certain subsidiaries for approximately RM55.7 million. These proceeds, together with part of the bank balances, were utilised to fund the net acquisition of held-for-trading investments of RM99.4 million. Trade receivables increased by RM11.0 million due to slower collection from customers. These resulted in an overall increase of current assets by RM2.2 million.

The Group's current liabilities increased by RM10.5 million mainly due to the additional drawdown of trade line facilities of RM36.6 million which were used to settle trade payables. Settlement of income tax liabilities of RM8.4 million and provision of tax of RM4.1 million resulted in a net decrease in income tax payable of RM4.3 million.

The Group's non-current liabilities increased by RM8.8 million due to additional financing for the expansion of its Food Services Division and the acquisition of a corporate building.

CASH FLOW POSITION

The Group registered a net decrease in cash and cash equivalents of RM63.5 million for the current financial year ended 30 September 2015.

Settlement of creditors of RM12.3 million, income tax paid of RM8.4 million and funding of receivables of RM10.1 million, which were partially offset against operating cash flow of RM13.0 million resulted in net cash used in operating activities of RM16.4 million.

Increase in set-up costs on new Texas Chicken Outlets.

RM 36.3 million INCREASE IN NON-CURRENT ASSETS

Deposits paid for the acquisition of land and building. For investing activities, the Group utilised RM306.5 million for the purchase of held-fortrading investments as well as property, plant and equipment, intangible assets and deposits paid for the acquisition of land and building.

Cash amounting to RM166.3 million were received from the sale of held-for-trading investments and property, plant and equipment, as well as interest and dividends received. The Group also collected RM57.4 million from the adjustment amount of the sale consideration in relation to the disposal of certain subsidiaries in the previous financial year. These resulted in net cash utilised of RM82.8 million for investing activities.

Net cash generated from financing activities of RM35.6 million arose from the drawdown of bank borrowings of RM54.6 million, which were partially offset by the repayment of borrowings and finance lease facilities and interest of RM18.7 million.

SEGMENTAL REVIEW BY BUSINESS DIVISIONS

The Group's businesses comprise of the Trading and Frozen Food, Food Services, Nutrition and Food Processing Divisions. The Trading and Frozen Food Division is the core business of the Group, contributing 51.7% of total revenue. This was followed by the Food Processing, Food Services and Nutrition Divisions which contributed 22.8%, 13.6% and 11.9% to total revenue respectively. Overall, the Group recorded a profit before tax of RM3.7 million.

The Trading and Frozen Food Division is the core business of the Group, contributing 51.7% of total revenue.

REVENUE BY BUSINESS SEGMENTS

FY2014/2015 (CONTINUING OPERATIONS)

	FY2014 RM'000	FY2015 RM'000
Trading and Frozen Food	166,809	169,272
Food Services	20,406	44,413
Nutrition	46,041	38,661
Food Processing	68,862	74,660
Others	4,246	-
Unallocated	425	351
Total	306,789	327,357

TRADING AND FROZEN FOOD DIVISION

The Trading and Frozen Food Division registered a marginal growth of 1.5% from RM166.8 million to RM169.3 million. The growth was mainly impacted by the adverse effects of the GST implementation in Malaysia and the weakening of the Ringgit against the US Dollar. As a result, the division posted profit before tax of RM1.1 million as compared to RM7.4 million in the previous financial year.

Segmental assets increased by 16.2% from RM99.6 million to RM115.7 million principally due to the increase in trade receivables turnover days. Segmental liabilities increased from RM21.4 million to RM44.6 million primarily due to the utilisation of new trade facilities which were obtained at the beginning of the financial year.

FOOD SERVICES DIVISION

The Food Services Division comprises the chain of Texas Chicken outlets that the Group currently operates in Klang Valley, Malaysia. The division posted a commendable increase in revenue, from RM20.4 million to RM44.4 million, mainly attributable to the opening of eight new outlets during the financial year. The division also achieved better sales performance as a result of market acceptance of its products' quality, value and brand. Loss before tax for the 2015 financial year reduced to RM3.3 million as compared to RM6.5 million in the previous financial year.

The increase in property, plant and equipment following the opening of the division's new outlets during the financial year contributed mainly to the increase in segmental assets, from RM22.4 million to RM34.7 million.

Segmental liabilities increased from RM9.8 million to RM17.0 million, principally due to the utilisation of hire purchase facilities to finance the acquisition of assets, and an increase in accrued royalty charges.

NUTRITION DIVISION

The Nutrition Division saw a 15.9% decrease in revenue, from RM46.0 million in FY2014 to RM38.7 million in FY2015. The division continued to be affected by unattractive trading terms and the influx of competitively priced US products. The performance was also affected by a slowdown in the Australia market brought on by an anaemic global economy. The division recorded profit before tax of RM1.1 million as compared to a loss before tax of RM0.3 million (after excluding the impairment for goodwill of RM7.3 million) in the previous financial year.

Segmental assets fell by 3.2%, from RM22.2 million to RM21.5 million. This was principally attributable to the decrease in inventories due to the lower stock holding for packaging materials and the reduction in trade receivables in Australia which was in line with the drop in Australia route sales. The decrease in packaging trade payables was the key contributor to the reduction in segmental liabilities from RM3.5 million to RM2.9 million.

FOOD PROCESSING DIVISION

The Group's Food Processing Division comprises the bakery, butchery, beverages and contract packing businesses.

The Food Processing Division's revenue increased by 8.4%, from RM68.9 million to RM74.7 million, due to better performance of the beverages, contract packing and butchery businesses. Collectively, the businesses registered an increase of RM12.2 million in revenue. However, it was affected by the poor performance of the bakery business which contributed a lower revenue of RM6.4 million to the division's revenue. This was due to the poor market sentiment brought on by the effects of Malaysia's GST implementation in April 2015. Overall, the division incurred a loss before tax of RM9.6 million as compared to RM10.4 million (after excluding a collective RM41.8 million in impairments of property, plant and equipment, and intangible assets; and the elimination of intercompany sales to a previously related company) in the previous financial year.

Segmental assets rose by 11.9%, from RM75.0 million to RM83.9 million, largely due to the deposit payment of RM11.6 million for the acquisition of the land in Pulau Indah. On the other hand, segmental liabilities were reduced by 6.4%, from RM23.5 million to RM22.0 million, mainly due to the repayment of borrowings.

Food Processing Division's revenue increased by RM5.8 million due to better performance of the beverages, contract packing and butchery businesses.

PROFIT/(LOSS) AFTER TAX BY OPERATING BUSINESS SEGMENTS FY2014/2015 (CONTINUING OPERATIONS)

	FY2014 RM'000	FY2015 RM'000
Trading and Frozen Food	4,808	(1,913)
Food Services	(6,501)	(3,262)
Nutrition	(9,333)	1,694
Food Processsing	(52,637)	(13,013)
Others	(21,186)	-
Unallocated	12,496	12,932
Total	(72,353)	(3,562)

PERFORMANCE REVIEW BY GEOGRAPHICAL **SEGMENTS**

The Group recorded an overall increase in revenue of RM20.6 million. Malaysia remained the Group's core market, contributing RM271.4 million or 82.9% of total revenue. This was followed by New Zealand which contributed RM27.5 million or 8.4% of the topline and Australia accounting for RM17.7 million or 5.4% of revenue. Others (China, Hong Kong, Dubai & Papua New Guinea) contributed RM9.8 million or 3.0% of revenue while the rest was from ASEAN (excluding Malaysia).

MALAYSIA

Malaysia continued to be the Group's key growth market, contributing 82.9% of the overall revenue. Revenue rose from RM240.3 million in FY2014 to RM271.4 million in FY2015, representing an increase of 12.9%, largely due to higher sales volume generated by Food Services Division, which opened eight additional outlets during the financial year and the Food Processing Division comprising of butchery, beverages and contract packing businesses.

AUSTRALIA AND NEW ZEALAND

Revenue declined by 8.3%, from RM49.3 million to RM45.2 million, mainly attributable to the lower sales performance of the Nutrition Division. This was due to the unattractive trading terms, the influx of competitively priced US products and a slowdown in the Australia market.

ASEAN (Excluding Malaysia)

The ASEAN market, which refers primarily to Singapore and Thailand, saw a reduction in revenue by 82.5%, from RM5.7 million to RM1.0 million as the previous financial year's ASEAN market referred primarily to Indonesia which had ceased its operations since then.

OTHERS

Revenue for the Others market, which refers principally to China, declined by 14.8%, from RM11.5 million to RM9.8 million, due to its market competition and the economy slowdown.

Malaysia continued to be the Group's key growth market, contributing 82.9% of the overall revenue.

PROSPECTS AND GROWTH PLANS

Trading and Frozen Food Division

The Malaysian Ringgit continued to depreciate against the major currencies of its trading partners particularly the US dollar, Euro and Sterling Pound in the last quarter of the financial year. This led to higher cost of imported food, resulting in margin pressures. The increased cost has yet to be passed on to customers in its entirety due to the slowing real economy arising from the impact of the GST implementation in Malaysia and the competitive trading environment.

The prices of imported beef from Australia and New Zealand continue to increase due to high cattle prices and demand. In order to mitigate the high prices, Pok Brothers has been sourcing more beef supplies from Brazil as they are comparatively cheaper. As for lamb shoulder, the price has softened about 9% due to a reduction in demand from China. For other products, agency principals have agreed to provide support in the form of higher promotion funding, discounts and capping of prices until June 2016.

Food Services Division

The weakening of the Malaysian Ringgit against the US Dollar has resulted in a slight increase in costs of imported food such as fries and tortilla. The price of fries had been contracted at a much lower exchange rate but the agreements will expire in December 2015. The Texas Chicken operations is looking at purchasing locally produced tortilla. To mitigate this impact, bone-in-chicken price is expected to be reduced due to rebates from higher volume of purchases. Overall, the division is likely to be able to negotiate for better prices of most food, given its better bargaining position as the number of its Texas Chicken outlets continue growing. The division is also constantly sourcing for new suppliers to complement its growing business and to ensure the best possible prices are obtained.

Consumer sentiment has been lower following the implementation of GST in Malaysia, which has triggered an increase in prices of goods and services. The retail market has been slower, with consumers tightening on their spending. Despite these factors, Texas Chicken continues to enjoy heathy sales due to market acceptance of its brand, products' quality and value.

The Texas Chicken brand has started to gain strength in Klang Valley, Malaysia. Consumers are increasingly aware of the brand presence in strategic locations and landlords have shown greater willingness in offering visible sites for the Texas Chicken outlets. In FY2015, a total of eight outlets were opened and the Group is expected to launch four more in Klang Valley, Malaysia, at the end of the first quarter of the next financial year. For the rest of the financial year, management expects to open several more outlets, with plans to have some of them located outside Klang Valley, Malaysia.

Nutrition Division

Dairy ingredients in the form of milk powders and highly specialised whey proteins form a significant component of the division's costs.

International prices for milk powder have recovered significantly in recent months following a period when they fell to their lowest levels for several years. Prices for specialised whey proteins purchased for the manufacture of Horleys products do not always follow the price trends of whole and skim milk directly. The outlook for these specialised whey proteins remain occluded. The company has substantially reduced the high levels of finished goods inventory associated with the recent change of contract manufacturers and is now in a position to actively invite tenders for their raw materials and packaging requirements for the coming period. As the new Melbourne-based contract manufacturer for the division's dairy-based protein products is very experienced at international sourcing, this is expected to deliver cost savings to the division over time.

Sales of nutritional supplements in Australasia appear to have softened, in line with the slower global economy. It was especially acute in the Australia market which is a key market for Horleys products. The division markets its range of sports nutrition and weight management products under the Horleys brand. The brand had been losing market share for a period but has stabilised its position over the last two quarters, with its market share of key New Zealand accounts ranging from 32% to 35%. This stabilisation is primarily due to an increase in promotional activity to counteract initiatives taken by a key competitor Vitaco as well as the recent launch of a nutritional bars product range which has enabled Horleys to claw back market share. Despite the increased promotional activity, the lower cost of the product range of new bars meant that there has been little impact to gross margins in this key channel for Horleys.

Negotiations are currently underway with contract manufacturers for Horleys bars in an effort to reduce costs as well as to increase the product's sales and margins.

The loss of market share in Australia has continued, owing to a combination of factors. These include the arrival of US brands that are priced at increasingly competitive levels as well as a significant increase in discounting by Australia brands competing to retain their market share. The recent strengthening of the US Dollar by a significant level has provided some prospect that the US brands will increase prices and/or reduce discounts, the frequency and the quantum of promotional deals. The division has observed some of these occurrences thus far.

The division has historically placed substantial weight on innovation to stimulate new demand and to keep the Horleys brand at the forefront. Regrettably, the need to stay competitive during this difficult period has meant that some funds which would be used in the re-launch of product ranges, i.e. creative, label design and origination, has been diverted towards additional value-added promotional deals resulting in bolstered trade margins in order to retain trade interest in the Horleys brand. This has been especially important in the Australia health food and supplement store channel. The recently adopted strategy appears to have begun arresting the slide in Horleys' market share.

Food Processing Division

(i) Bakery

Wheat, which forms a material portion of raw material costs, has been on a continuous downtrend due to weak global demand, especially from China. However, the advantage of lower wheat costs has been negated by the weakening of the Malaysian Ringgit against the US Dollar. Suppliers of sugar, yeast and other ingredients have indicated the potential for price increases due to the rising costs resulting from the weakening of Ringgit. In addition, the Malaysian government has placed a price floor on industrial diesel, thus, preventing the price from falling further when sold to the industrial users.

Consumer spending remained weak in Malaysia, following the implementation of the GST, coupled with an increase in toll charges and an economic slowdown.

To counteract the intense competition within the bakery sector, management is embarking on some branding activities such as a logo revamp, new packaging and engagement of customers on social media. A new research and development laboratory will be built to produce new products and to improve existing products. To control costs, measures have been undertaken to improve process efficiencies.

(ii) Butchery

As the cost of imported meat has been impacted by the weakening Ringgit, the margin of the Gourmessa brand of products were similarly affected. This is due to the constraints in passing cost increases entirely to retail outlets. However, revenue has been boosted from the increased sales to certain existing and new customers.

The operations of Gourmessa are currently affected by the limited capacity of its present facilities. The Group recently purchased several pieces of land in the Selangor Halal Hub Pulau Indah ("SHHP") and intends to relocate the butchery's existing facilities to SHHP, where larger production facilities will be built to cater to higher demand for the division's products. Other than the benefit of larger production facilities, the Gourmessa brand will be enhanced due to its location in a Halal Park and may be potentially eligible for special tax incentives available to companies located in SHHP.

(iii) Beverages

The local sales of the beverage business in the current financial year were impacted by a change in distribution channel resulting from the sale of the Group's Dairies Division in the previous financial year. In addition, export sales were also affected by the slower growth in China.

Export sales is anticipated to be slow in the first quarter of the next financial year as China enters the winter season, during which demand for canned drinks is typically at the lowest. Unless China recovers from its declining growth, export demand could be affected even after the winter season.

In the local market, the current price competition within the sector is intense. To remain competitive and maintain volume levels, discounts; incentives; and other promotional activities were provided to retailers. In addition, new products will be launched in the first quarter of the next financial year.

In the next three to six months, prices of raw materials, i.e. sugar, soya bean and other packaging materials, is expected to be on an upward trend due to the weakening of the Malaysian Ringgit.

However, the prices of empty tin cans are not anticipated to be affected as the current contracted price has another year before it expires. Subsequently any increase in raw material prices is likely to impact manufacturers in the industry.

(iv) Contract Packing for Dairy and Juice-Based Drinks

Farm milk forms a significant component of the division's costs. International prices for milk powder have come off from its peak prices at around the end of 2013, providing some pricing relief in recent quarters.

The overall demand for milk products globally remains muted, reflecting the current world economic outlook. Farmgate prices have fallen from NZD8.65/kg for milk solids, to NZD4.70/kg in the quarter from December 2015 to February 2016. In addition, the New Zealand Dollar weakened from a high of USD0.88 in 2014 to USD0.67 currently. The weakening of these two key price drivers has made New Zealand dairy products more attractive to overseas buyers, particularly those in China. The local sales of the beverage business in the current financial year were impacted by a change in distribution channel resulting from the sale of the Group's Dairies Division in the previous financial year.

The Group began the construction of a new data centre in November 2015 and was completed in mid-December 2015. Demand for PET aseptic products continues to grow in Australia, New Zealand and the global market. The Group believes that there are currently no major PET aseptic manufacturers with significant capacity in the region to compete with the division.

The division's unique advantage lies within its capabilities in dairy and non-dairy aseptic copacking in PET bottles, and direct access to fresh farm milk in New Zealand. These factors, coupled with co-pack price increases and the resolution of sterility issues that have impacted the business, are contributing to improved margins for new and existing customers. The Group continues to enjoy strong demand for value-added aseptic PET bottled products. The division focused on new product offerings to meet the increase in consumer demand for aseptically bottled beverages. The current product focus is on grain and nut based dairy-free alternative milk beverages with flavours such as coconut, almond, soy, rice, macadamia. Dairy-free drinking yoghurt is also under development while the division is considering goat milk as another new product.

RESOURCES REQUIREMENT

Computerisation

Given the increasing reliance on Information Technology ("IT") to drive efficiencies, Envictus has invested in its IT infrastructure. The Group began the construction of a new data centre in November 2015 and was completed in mid-December 2015. The new state-of-the-art data centre will be equipped with a sophisticated monitoring system that detects heat, smoke, water and power outages. Other than realtime alerts that will be sent to the IT Team, the data centre will also be equipped with power generators to ensure the continuity and operations of the data centre without interruption.

A new firewall will provide security and better controls over the network while providing faster response for hosting services in the data centre.

The data centre will refresh its aging servers with new and better performing ones, providing better redundancy for higher server uptime. The servers will also be enhanced for better scalability and performance, with the exercise being expected to start from the second quarter of the next financial year after the completion of the new data centre.

Human Resource

The Group's total staff count was approximately 1,200 as at 30 September 2015.

27

RISK FACTORS

The following is an overview of Envictus' risk factors, with brief description of the nature and extent of the Group's exposure to these risks. We strive to provide reasonable assurance to our stakeholders by incorporating sound management control into our daily operations, ensuring compliances with legal requirements, and safeguarding the integrity of the Group's financial reporting as well as related disclosures.

ECONOMIC RISKS

Changes in the economic conditions within and outside of Malaysia where the Group's main operations are based may have material adverse impact on the demand for the Group's products, consequently affecting the operations and financial performance of the Group. While the Group operates in a fairly defensive F&B industry, the Group is not completely shielded from the impact of world economic crisis.

BUSINESS RISKS

Any significant increase in the prices of our raw materials would have an adverse impact on our profitability

The raw materials we utilise for the manufacture of our products within our subsidiaries comprise substantially of whey protein concentrate, milk powder, liquid fresh milk, margarine, yeast, salt, sugar, vitamins, raw meat, flour, palm olein and packaging material (such as paper and plastic packaging, cans, labels and cartons). In order to ensure that we are able to efficiently deliver quality products to our customers at competitive prices, we need to obtain sufficient quantities of good quality raw materials at acceptable prices and in a timely manner. As such, we typically enter into forward supply contracts. In the event that our suppliers are unable to fulfill our raw material needs, we may not be able to seek alternative sources of supply in a timely manner or may be subject to higher costs from alternative suppliers. This may adversely affect our ability to meet our customers' orders and our profitability in the event that we are unable to pass on such costs to our customers.

Our failure to meet adequate health and hygiene standards will lead to a loss in customer confidence

Our products are manufactured under very stringent quality control processes and the Group stresses quality and hygiene as a top priority. If there is any incidence of contamination or food poisoning in any of our subsidiaries, our Group may face criminal prosecution under the Food Act 1983 (including its sub regulation Food Hygiene Regulations 2009) in Malaysia, Animal Products Act 1999 New Zealand, Food Act 1981 New Zealand or other relevant regulations in jurisdictions to which our products are exported to, a loss in customer confidence and a negative impact on our reputation. Accordingly, our prospects as well as our financial condition will be adversely affected.

It is also possible that the relevant authorities may impose directives as a result of health and hygiene issues to carry out certain remedial actions which may impact on our operations. Failure to comply with such directives may result in our licenses being suspended and/or revoked, which will have a material adverse impact on our financial performance.

To mitigate this risk, our operations are International Organization for Standardization (ISO) and Hazard Analysis and Critical Control Point (HACCP) accredited by international certification bodies and we also subscribe to Good Manufacturing Practice (GMP). We have also met the Malaysian Standard on Halal Food MS 1500 : 2009 and therefore issued with the Halal certification from JAKIM (Department of Islamic Development Malaysia).

We may be subject to product liability claims if our products are found to be unfit for consumption

If our products are found to be unfit for consumption and consumers suffer damage, injury or death as a result of consuming or coming into contact with our products, we may be required to compensate the consumer for any injury or death. The Group's profitability would be adversely affected if the amount payable under the insurance policies covering the Group is not sufficient to meet the compensation amount payable. Accordingly, our reputation, prospects, and financial condition will also be adversely affected.

RISK FACTORS

Possible changes in consumer taste may lead to lower demand and sales of our products

Being in the F&B industry, the nature of our business is highly dependent on consumer preferences. We strive to achieve the highest quality in the products we offer. However, the level of market acceptance of our products ultimately relies on consumer taste and lifestyle. The younger affluent generation now has higher purchasing power and is willing to pay a premium for products which cater to their individual desires. Also, the current consumer trend towards healthier lifestyle and organic products may pose threats to our Group's business if we are not flexible enough to adapt and cater to the trend.

An outbreak of disease in livestock, such as cows, goats and chickens, and food scares may lead to loss of consumer confidence in our products

Any outbreak of disease in livestock and food scares may have an adverse impact on the business of our Group as it may lead to loss in consumer confidence and reduction in consumption of the particular food or related products concerned. It may also affect our Group's sources of supply of raw materials, such as milk powder or raw meat, from that particular area, resulting in our Group having to source for alternative supplies which may be more costly or have negative impact on our production processes and output.

We depend on key management personnel and the loss of such personnel may adversely affect our Group's operations

The Group's success to date has been due largely to the contributions of its management teams and employees. As such, the Group's continued success is dependent on its ability to retain the services of such personnel. There is no certainty that the Group will be able to retain or integrate new personnel into the Group or identify or employ qualified personnel. Accordingly, the loss of the services of these key personnel or the inability to attract additional qualified persons may negatively affect the Group's business, financial condition, results of operations and future development.

REGIONAL EXPANSION RISKS

The Group now has its operation base in Malaysia and New Zealand. However, we are still constantly seeking new business opportunities overseas. Thus, the Group will focus equally on international expansion for future growth. However, there are considerable risks associated with this regional expansion strategy.

Ability to extract synergies and integrate new investment

In acquisition, the Group faces challenges arising from being able to integrate newly acquired businesses with our own existing operations, managing businesses in new markets where we have limited experience. There is no assurance that synergies can be created from the new acquisitions and that the returns generated from the new ventures will meet the management's expectations.

Ability to make further acquisitions

Although we are constantly looking for new opportunities that could contribute to our future growth, there is no assurance that there will be sound acquisition opportunities available as there are constraint factors such as competition from other investors, government policies, political considerations, and last but not least, sincere sellers with sound business deals.

FINANCIAL RISKS

Credit risks

Credit risk is the potential financial loss resulting from the failure of a customer or counterparty to settle its financial and contractual obligations to the Group as and when they fall due. While the Group faces the normal business risk associated with ageing collections, it has adopted a prudent accounting policy of making specific provisions once trade debts are deemed not collectible. Nonetheless, a delay or default in payment and/or significant increase in the incidence of bad trade receivables would have a material and adverse impact on our financial position and performance.

RISK FACTORS

Foreign currency risks

The Group incurs foreign currency risk on transactions and balances that are denominated in currencies other than the entity's functional currency. The currencies giving rise to this risk are primarily Ringgit Malaysia, United States Dollar, New Zealand Dollar, Australian Dollar and Hong Kong Dollar. Exposure to foreign currency risk is monitored on an on-going basis to ensure that the net exposure is at an acceptable level and hedging through currency forward exchange contracts is done where appropriate.

Interest rate risks

The Group's exposure to changes in interest rates relates primarily to bank borrowings with financial institutions. The Group strives to maintain an efficient and optimal interest cost structure using a combination of fixed and variable rate debts, and long and short term borrowings. The objective for the mix between fixed and floating rate borrowings are set to reduce the impact of an upward change in interest rates while enabling benefits to be enjoyed if the interest rates fall. In the event of any substantial increase in interest rates, cash borrowings obligations may be extended and our financial performance may be affected.

Liquidity risks

The Group actively manages its operating cash flows and the availability of funding so as to ensure that all repayment and funding needs are met. As part of our overall prudent liquidity management, the Group maintains sufficient level of cash and cash equivalents to meet its working capital requirements. Short-term funding is obtained from overdraft and trade facilities from banks and finance leases from financial institutions. As such, we are subject to risks normally associated with debt financing, including the risk that our cash flows will be insufficient to meet required payment of principals and interest. In addition, while in the past our cash flows from our operations and financing activities had been sufficient to meet our payments obligations for borrowings and interest, there is however no assurance that we are able to do so in the future. In such event, we may be required to raise additional capital, debt or other forms of financing for our working capital. If any of the aforesaid events occur and we are unable for any reason to raise additional funds to meet our working capital requirements, our business, financial performance and position will be adversely affected.

Equity price risks

The Group is exposed to equity price risks arising from equity investments classified as either available-for-sale financial assets or heldfor-trading financial assets. Available-for-sale equity investments are held for strategic rather than trading purposes. The Group does not actively trade available-for-sale equity investments.

BOARD OF DIRECTORS

DATO' JAYA J B TAN Non-Executive Chairman Member of Audit Committee Member of Remuneration Committee Member of Nominating Committee

Dato' Jaya J B Tan is the Non-Executive Chairman of the Company and was appointed to the Board since 23 December 2003. He graduated from the University of Arizona and is a Mechanical Engineer by training. He has extensive experience in forestry, property development, food retail operations, trading and financial services. Previously, he has served as Chairman of several companies quoted on the stock exchanges of Malaysia, United Kingdom, Singapore, Australia and India.

Currently, Dato' Jaya is the Executive Chairman of Lasseters International Holdings Limited, a company listed on the Singapore Stock Exchange ("SGX"). He is also the Chairman of Cypress Lakes Group Limited, a public company in Australia and the Vice Chairman of Park Hyatt Saigon, a 259-room 5-star hotel in Ho Chi Minh City, Vietnam.

Dato' Jaya was last re-elected as Director at the Annual General Meeting ("AGM") held in January 2014. He will retire at the forthcoming AGM and will offer himself for re-election.

Dato' Jaya is the brother of Dato' Kamal Y P Tan.

DATUK GOI SENG HUI Non-Executive Vice-Chairman

Datuk Goi Seng Hui joined the Board of Envictus International Holdings Limited as Vice-Chairman and Non-Executive Director on 9 January 2013.

He is the Executive Chairman of Tee Yih Jia Group and SGX Mainboard-listed GSH Corporation Limited.

Established in 1969, Tee Yih Jia Group is a global food and beverage group with operations in Singapore, Malaysia, USA, Europe and China. GSH Corporation Limited is a growing property developer with a portfolio of residential, commercial and hospitality real estate in Southeast Asia and China. The company owns the landmark GSH Plaza building in Raffles Place Singapore and has properties under development in Kuala Lumpur and Kota Kinabalu. GSH owns and operates the 5-star Sutera Harbour Resort, marina and golf course in Kota Kinabalu.

Apart from these core businesses, Datuk Goi has investments across a range of listed and private entities in numerous industries, such as food and beverage, consumer essentials, recycling, distribution and logistics. Datuk Goi also serves on the board of three other mainboard-listed companies – Vice Chairman of Super Group Limited, Vice Chairman of JB Foods Limited, and Director of Tung Lok Restaurants (2000) Ltd.

He was named "Businessman of the Year" at the Singapore Business Awards (2014) and conferred the Public Service Star (Bar) (BBM (L)) at the 49th National Day Awards by the president of Singapore for his contributions to the community. Datuk Goi was also conferred the State Award of Panglima Gemilang Darjah Kinabalu (PGDK), which carries the title of Datuk, from the Head of State of Sabah for his social and business contributions to Kota Kinabalu. In 2015, he was awarded the "SG50 Outstanding Chinese Business Pioneers Award". Datuk Goi is also a member of the Singapore University of Technology and Design (SUTD) Board of Trustee, and Chairman of Dunman High School Advisory Committee and Ulu Pandan Citizens Consultative Committee.

Datuk Goi was re-elected as Director of the Company at the AGM held in January 2013. He will retire at the forthcoming AGM and will offer himself for re-election.

BOARD OF DIRECTORS

DATO' KAMAL Y P TAN Group Chief Executive Officer

Dato' Kamal Y P Tan is the Group Chief Executive Officer of the Company and was appointed to the Board on 23 December 2003. He was appointed as the Executive Director of the Company upon its listing on 23 December 2004 and has been redesignated to the current position since 20 January 2009.

Dato' Kamal is an Economics graduate from the London School of Economics and has held board positions with companies listed on the stock exchanges in Malaysia, Singapore, Australia, United Kingdom and India.

Currently, Dato' Kamal is also the Non-Executive Director of another company listed on the Singapore Stock Exchange, namely Lasseters International Holdings Limited. He is a Director of Cypress Lakes Group Limited, a public company in Australia and is a Board member of Park Hyatt Saigon, a 259-room 5-star hotel in Ho Chi Minh City, Vietnam.

Dato' Kamal was re-elected as Director at the AGM held in January 2015.

Dato' Kamal is the brother of Dato' Jaya J B Tan.

Mr Teo Chee Seng was appointed Independent Director of the Company on 3 August 2004. He holds a Bachelor of Law (Hons) degree from the University of Singapore and is a lawyer in the Singapore private practice for more than 30 years.

Mr Teo acts as the legal consultant to Tzu Chi Foundation, Taiwan's biggest charity organisation which is also an United Nations NGO.

Apart from the present directorship of the Company, Mr Teo is the Independent Director of Lasseters International Holdings Limited and Soilbuild Construction Group Ltd, companies listed on the Singapore Stock Exchange and United Overseas Australia Ltd, which is listed on both Singapore and Australia stock exchanges and UOA Development Bhd, a company listed on the Bursa Malaysia.

Mr Teo was re-elected as Director of the Company at the AGM held in January 2015.

TEO CHEE SENG

Independent Director Chairman of Remuneration Committee Chairman of Nominating Committee Member of Audit Committee
BOARD OF DIRECTORS

JOHN LYN HIAN WOON Independent Director Chairman of Audit Committee Member of Remuneration Committee Member of Nominating Committee Mr John Lyn Hian Woon was appointed Independent Director on 3 August 2004. He holds a BSc degree in Mechanical Engineering from the University of Leeds, UK and an MBA from Washington State University.

Mr Lyn is currently the Executive Director of Pine Forest Capital, a Boutique Fund Management Company, registered in Singapore. He is also a Director of Sirus International Holdings, an international school based in Kuala Lumpur.

Mr Lyn is a former Chairman of Vietnam Asset Management, an associate company of UOB Kay Hian, which manages Public-listed Funds for Vietnam. He has previously held the position of Chief Executive Officer of Colonial Investment Pte. Ltd. and was responsible for management, strategic planning, investment and corporate restructuring. Prior to that, he was an investment banker with various financial institutions such as Chase Manhattan Bank, Citibank, Schroders Securities and HSBC James Capel with a total of 15 years of experience.

Apart from the directorship of the Company, Mr Lyn does not hold directorship in any other listed companies.

Mr Lyn was re-elected as Director of the Company at the AGM held in January 2014.

MAH WENG CHOONG

Mr Mah Weng Choong was appointed to the Board on 3 August 2004 as a Non-Executive Director and was re-designated to the position of Group Chief Operating Officer ("Group COO") on 13 May 2010. Mr Mah relinquished his position as Group COO of the Company following the completion of the disposal of the Group's dairies and packaging business to Asahi Group Holdings Southeast Asia Pte. Ltd. and was re-designated as Non-Executive Director with effect from 1 July 2014. Mr Mah was the Group COO of Etika Dairies Sdn Bhd from 30 June 2014 to 30 June 2015.

Mr Mah is a graduate in Science from the University of Malaya and is an industry veteran who spent more than 5 decades in companies involved in the manufacturing and distribution of sweetened condensed milk, ice-cream, UHT beverages, milk powder packing and other dairy-related products. Experienced and knowledgeable in setting up plants and strategic planning, Mr Mah is instrumental in the development and expansion plans of the dairies, packaging and beverage divisions of the Group since its inception.

Apart from the directorship of the Company, Mr Mah does not hold directorship in any other listed companies.

Mr Mah is due for re-appointment as a Director at the forthcoming AGM.

KEY MANAGEMENT

BILLY LIM YEW THOON

Chief Financial Officer

Mr Billy Lim joined Envictus as Chief Financial Officer on 1 March 2011. He is a Fellow member of the Association of Chartered Certified Accountants, a member of the Malaysia Institute of Accountants, a member of the Malaysian Institute of Corporate Governance, an Associate member of the Chartered Tax Institute of Malaysia and an Associate member of Institute of Internal Auditors.

Mr Lim brings with him a wealth of experience of more than 18 years in the audit practice and another 8 years in the commercial industry. He has also worked as the General Manager of Internal Audit for more than 3 years in a large public corporation listed on Bursa Malaysia Securities Berhad. His commercial experience includes monitoring of manufacturing and gaming operations located in Malaysia and overseas as well as participation in the negotiation and takeover of companies.

Prior to joining Envictus, Mr Lim was a Director of a consulting firm which has been providing consultancy and internal audit services to a Malaysian listed company. He was also a sole proprietor of a firm of practising accountants.

LAWRENCE POK YORK KEAW

Chief Executive Officer – Frozen Food Division

Mr Pok York Keaw has extensive experience in the hotel and restaurant industry. He is the Chief Executive Officer of Envictus' Frozen Foods Division and had been with Pok Brothers Sdn Bhd since the mid 1960's. He was instrumental in building up the company from a mini-market trader to an importer of quality foods and distributor of a classic range of international branded products. Due to his accumulated extensive knowledge in the food industry, a subsidiary known as De-luxe Food Services Sdn Bhd, was established to manufacture "Gourmessa Brand value added Halal food products" (portion control meat, delicatessen meat, smoked salmon, bread and pastry products) to further enhance the business and service to the customers.

RICHARD ROWNTREE

Managing Director, Naturalac Nutrition Ltd

Mr Richard Rowntree has overall responsibility for the nutritional products business. Based in New Zealand, the business heritage is in the niche health & fitness centre sales. With the market's broader awareness of the role of supplementary nutrition to assist achieving personal performance goals future prospects for growth lie in further development of mass market channels in New Zealand and Australia. Mr Rowntree also represents the group's interests in relation to ensuring the success of Envictus Dairies NZ Limited, the aseptic UHT beverage manufacturing business based in New Zealand. The potential for growth of this business will draw on Mr Rowntree's extensive experience in international business development. Prior to his appointment to his current role with Naturalac Nutrition Ltd in March 2003, he had been employed in international business development senior management roles with a number of public-listed New Zealand based companies including Cerebos, Fletcher Challenge and (Heinz) Watties. Mr Rowntree has had previous experience in leading export business development into markets including United Kingdom, Australia, the Pacific Islands and a number of South East Asian countries.

NEIL MCGARVA

Chief Executive Officer, Envictus Dairies NZ Ltd

Mr Neil McGarva studied food science at Massey University and holds a Royal Society of Health Diploma in Public Health Inspection. He spent 10 years working for NZ Government as a food safety auditor and Environmental Health Officer.

In 1992, he established Pandoro Bakeries, an Artisan bread manufacturing factory in Auckland, New Zealand, expanding operations to multiple manufacturing sites Nationwide. In 2002, he established the Natural Pet Treat Company in Auckland, which continues today as a major manufacturer and exporter of quality natural pet foods.

In 2006, he established New Zealand's first UHT Aseptic PET Bottling plant in Hawkes Bay. In 2009, he merged this operation with Envictus International Holdings Limited to form Etika Dairies NZ Ltd, now known as Envictus Dairies NZ Ltd, in 2014.

He is currently CEO of Envictus Dairies NZ Ltd, a contract manufacturer of ESL and shelf stable PET bottled plain and flavoured milk, protein drinks, juice, lactose free milk, drinking yoghurt, coconut milk and almond milk for domestic and export markets.

FOOD PROCESSING DIVISION

The Directors and Management of Envictus International Holdings Limited ("Envictus" or the "Company") and its subsidiaries (collectively with the Company, the "Group") are committed to maintain high standards of corporate governance in order to protect the interests of its shareholders as well as enhance corporate performance and business sustainability. The Group will continue to uphold good corporate governance practices consistent with the principles of the Code of Corporate Governance (the "Code"), which forms part of the Continuing Obligations of the Singapore Exchange Securities Trading Limited ("SGX-ST")'s Listing Manual.

This report outlines the Group's corporate governance processes and activities that were in place throughout the financial year, with specific reference to the Code as revised by the Monetary Authority of Singapore ("MAS") on 2 May 2012. Deviations from the Code, if any, are explained under the respective sections.

BOARD MATTERS

Principle 1 : The Board's conduct of its affairs

The primary function of the Board of Directors ("the Board") is to provide effective leadership and direction to enhance the long-term value of the Group to its shareholders and other stakeholders. The Board oversees the business affairs of the Group and has the overall responsibility for reviewing the strategic plans and performance objectives, financial plans and annual budget, key operational initiatives, major funding and investments proposals, financial performance reviews and corporate governance practices.

In addition, the principal duties of the Board include:-

- 1. provides leadership and guidance on the overall strategic direction and business conduct of the Company;
- 2. reviews the performance of the Group Chief Executive Officer ("Group CEO") and senior management executives and ensures they are appropriately remunerated;
- 3. reviews the adequacy and effectiveness of the Group's risk management and internal control systems including financial, operational compliance and information technology controls;
- 4. reviews and approves key operational and business initiatives, major funding proposals, significant investment and divestment proposals, corporate or financial restructuring, share issuance and dividends, the Group's annual budgets and capital expenditure, the Group's operating and financial performance, risk management processes and systems, human resource requirements, the release of quarterly and full year financial results and other corporation actions; and
- 5. provides management with the advice on issues raised and at the same time monitors the performance of the Management team.

Independent judgement

All directors exercise due diligence and independent judgement and make decisions objectively in the best interests of the Group.

Delegation by the Board

The Board has delegated certain of its functions to the Audit Committee ("AC"), Nominating Committee ("NC") and Remuneration Committee ("RC"). These committees operate under a clearly defined terms of reference. The Chairman of the respective Committees reports the outcome of the Committees meetings to the Board.

Key features of board processes

The dates of the Board and board committee meetings are scheduled in advance to assist the directors in planning their attendance. The Board meets at least three times a year and as warranted by particular circumstances. Ad-hoc meetings are also convened to deliberate on urgent and substantive matters. Telephone attendance and conference via audio-visual communication at Board and board committee meetings are allowed under the Company's Articles of Association.

Directors' attendance at Board and board committee meetings in FY2015

The attendance of the directors at meetings of the Board and Board committees is as follows:-

	Board	Audit Committee	Remuneration Committee	Nominating Committee
No. of meetings held in FY2015	5	5	2	1
Number of meetings attended				
Dato' Jaya J B Tan	5	5	2	1
Datuk Goi Seng Hui	4	n/a	n/a	n/a
Dato' Kamal Y P Tan	5	n/a	n/a	n/a
Mah Weng Choong	5	n/a	n/a	n/a
Teo Chee Seng	5	5	2	1
John Lyn Hian Woon	5	5	2	1

n/a - not applicable as director is not a member of the committee.

Board approval

The Group has adopted a guideline setting forth matters that require the Board approval. The types of material transactions that require Board approval, among others, include:-

- 1. Announcements for the quarterly and full-year results;
- 2. Audited Financial Statements;
- 3. Convening of shareholders' meetings;
- 4. Declaration of interim dividends and proposal of final dividends;
- 5. Acceptance of financial facilities and issuance of corporate guarantee;
- 6. Annual operating and capital budgets;
- 7. Approval of material acquisition and disposal of assets; and
- 8. Interested person transactions.

Induction and training of directors

The Group conducts an orientation briefing to provide newly appointed Directors with a better understanding of the Group's business activities, strategic direction and policies, key business risks, governance practices and Group culture to enable them to assimilate into their new roles. The directors will be encouraged to attend appropriate training, conferences and seminars for them to stay abreast of relevant business developments and outlook.

The Board is briefed on recent changes on the accounting standards and regulatory updates. The Group CEO updates the Board at each meeting on business and strategic developments of the Group. As part of the Company's continuing education for directors, directors are provided with articles, reports and press releases relevant to the Group's business to keep them updated on current industry trends and issues.

No external training was attended by the directors in FY2015.

Principle 2 : Board composition and guidance

Presently, the Board of Directors ("the Board") of Envictus comprises the following directors:-

			Date of last	
		Date of first	re-election/	
Name	Age	appointment	re-appointment	Designation
Dato' Jaya J B Tan	68	23.12.2003	23.01.2014	Non-Executive Chairman
Datuk Goi Seng Hui	69	09.01.2013	25.01.2013	Non-Executive Vice-Chairman
Dato' Kamal Y P Tan	63	23.12.2003	29.01.2015	Group Chief Executive Officer
Mah Weng Choong	77	03.08.2004	29.01.2015	Non-Executive Director
Teo Chee Seng	61	03.08.2004	29.01.2015	Independent Director
John Lyn Hian Woon	57	03.08.2004	23.01.2014	Independent Director

Each year, the NC reviews the size and composition of the Board and board committees and the skills and core-competencies of its members to ensure an appropriate balance of skills and experience. These competencies include business acumen, legal, accounting and finance, management experience, industry knowledge, strategic planning experience, familiarity with regulatory requirements and knowledge of risk management. The Board considers its directors possess the necessary competencies and knowledge to lead and govern the Group effectively.

Taking into account the nature and scope of the Group's businesses and the number of board committees, the Board considers the current board size as appropriate. The Board believes that the current composition and size provides sufficient diversity without interfering with efficient decision making. The directors' academic and professional qualifications are presented under the section "Board of Directors" in this annual report.

Directors' independence review

Director who has no relationship with the Group, its related corporations, officers or its shareholders with shareholdings of 10% or more in the voting shares of the Company that could interfere, or be reasonably perceived to interfere with the exercise of the director's independent business judgement in the best interests of the Company is considered independent.

The NC is tasked to determine on an annual basis and as and when the circumstances require whether or not a director is independent. For the purpose of determining the directors' independence, every director has provided declaration of their independence which is deliberated upon by the NC and the Board. After taking into account the views of the NC, the Board considers that the following directors are regarded non-independent directors of the company:

Name of directors	Reasons for non-independence
Dato' Jaya J B Tan	Dato' Jaya is not independent as he holds more than 10% of the Company's voting shares. Dato' Jaya is the brother of Dato' Kamal.
Dato' Kamal Y P Tan	Dato' Kamal is not independent as he is employed as the Group CEO and also holds more than 10% of the Company's voting shares. Dato' Kamal is the brother of Dato' Jaya.
Datuk Goi Seng Hui	Datuk Goi is not independent as he holds a deemed interest of more than 10% of the Company's voting shares through Tee Yih Jia Food Manufacturing Pte. Ltd.
Mah Weng Choong	Mr Mah is not independent as he was employed by the Company for the past 3 financial years.

Save for the abovementioned directors, all the other directors on the Board are considered by the NC and the Board to be independent directors.

The Board also recognizes that independent directors may over time develop significant insights in the Group's business and operations and can continue to provide significant and valuable contribution objectively to the Board as a whole. When there are such directors, the Board will do a rigorous review of their continuing contribution and independence and may exercise its discretion to extend the tenures of these directors.

Independent directors, Mr Teo Chee Seng and Mr John Lyn Hian Woon have each served on the Board for more than nine years. The NC has conducted a rigorous review of their contributions to the Board to determine if they have maintained their independence. The NC and the Board are satisfied with their continued independence in character and judgement in discharging their responsibilities as directors of the company.

When a Director has multiple board representations, the NC also considers whether or not the Director is able to and has adequately carried out his/her duties as a Director of the Company. The NC is of the view that there is no current need to determine the maximum number of board representations a Director should have as the NC is satisfied that the Directors have been giving sufficient time and attention to the affairs of the Company, notwithstanding that some of the Directors have multiple board representations. Board and Board Committee meetings are scheduled in advance to facilitate the Directors' scheduling of their commitments.

The NC is satisfied that all Directors have discharged their duties adequately for the financial year ended 30 September 2015.

Principle 3 : Chairman and Chief Executive Officer

The Chairman and the CEO functions in the Company are assumed by different individuals. The Chairman is Dato' Jaya J B Tan and the Group CEO is Dato' Kamal Y P Tan. Dato' Jaya and Dato' Kamal are brothers. There is a clear division of responsibilities between the Chairman and the Group CEO, which ensures the balance of power and authority at the top of the Company.

The Chairman is responsible for the effective workings of the Board and promotes high standards of corporate governance. He ensures that Board meetings are held when necessary and sets the Board meeting agenda in consultation with other directors and the key management. He also reviews Board papers before they are presented to the Board to ensure that information provided to the Board members is adequate. During the Board meetings, he facilitates effective contributions and constructive discussions on strategic issues and business planning from the executive and non-executive directors.

The Group CEO is responsible for the running of the day-to-day business of the Group within the authorities delegated to him by the Board, ensuring implementation of policies and strategy across the Group as set by the Board, ensuring that the Chairman is kept appraised in a timely manner of issues faced by the Group and of any important events and developments and leading the development of the Group's future strategy including identifying and assessing risks and opportunities for the growth of its business and reviewing the performances of its existing businesses.

Principle 4 : Board membership

The members of the board committees of the Company are as follows:-

Directors	Audit Committee	Nominating Committee	Remuneration Committee
John Lyn Hian Woon	Chairman	Member	Member
Teo Chee Seng	Member	Chairman	Chairman
Dato' Jaya J B Tan	Member	Member	Member

NC composition

The NC comprises one non-executive director and two independent non-executive directors, one of whom is also the Chairman of the Committee. The members of the NC are as follows:-

Teo Chee Seng (Chairman)Non-Executive, IndependentJohn Lyn Hian Woon (Member)Non-Executive, IndependentDato' Jaya J B Tan (Member)Non-Executive

The NC has adopted its terms of reference that describes the responsibilities of its members.

The NC decides how the Board should be evaluated and selects a set of performance criteria that is linked to long-term shareholders' value, to be used for performance evaluation of the Board.

The NC performs the following principal functions:-

- Reviews the structure, size and composition of the Board and make recommendations to the Board;
- Identifies candidates and reviews all nomination for the appointment and re-appointment of members of the Board;
- Determines annually whether or not a Director is independent in accordance with the guidelines of the Code;
- Decides how the Board's performance may be evaluated and proposes objective performance criteria for the Board's approval; and
- Assesses the effectiveness of the Board as a whole, as well as the contribution by each member of the Board.

The Board has power from time to time and at any time to appoint a person as a Director to fill a casual vacancy or as an addition to the Board. Any new Directors appointed during the year shall only hold office until the next Annual General Meeting ("AGM") and submit themselves for re-election and shall not be taken into account in determining the Directors who are to retire by rotation at that meeting.

Article 87 of Envictus' Articles of Association requires the Managing Director, Chief Executive Officer or President (or person holding an equivalent position) who is a Director to be subject to retirement by rotation.

Article 91 of Envictus' Articles of Association requires one third of the Board to retire by rotation at every AGM. The Directors must present themselves for re-nomination and re-election at regular intervals of at least once every three years.

In reviewing the nomination of the retiring directors, the NC considered the performance and contribution of each of the retiring directors, having regard not only to their attendance and participation at Board and Board Committee meetings but also the time and efforts devoted to the Group's business and affairs, especially the operational and technical contributions.

In considering the appointment of any new director, the NC ensures that the new director possesses the necessary skills, knowledge and experience that could facilitate the Board in the making of sound and well-considered decisions. For re-appointments, NC takes into account the individual director's past contributions and performance.

The NC has recommended the nomination of Directors retiring pursuant to the Company's Articles of Association, namely Datuk Goi Seng Hui (pursuant to Article 91) and Dato' Jaya J B Tan (pursuant to Article 91) who will retire and submit themselves for re-election at the forthcoming Annual General Meeting. The NC is satisfied that both Datuk Goi Seng Hui and Dato' Jaya J B Tan are properly qualified for re-election by virtue of their skills and experience and their contribution and guidance to the Board's deliberation.

Datuk Goi Seng Hui was appointed as a Director of the Company with effect from 9 January 2013. Datuk Goi will upon re-election remain as Vice-Chairman of the Board of Directors.

Dato' Jaya was appointed as a Director of the Company on 23 December 2003. He will upon re-election as a Director of the Company, remain as the Chairman of the Board of Directors and members of the Audit Committee, Remuneration Committee and Nominating Committee.

Principle 5 : Board performance

The Board regularly reviews the performance of the Management in meeting agreed goals and objectives and monitors the reporting of performance.

A formal review of the Board's performance will be undertaken collectively and individually by the Board annually. The NC will also review the Board's performance informally with inputs from the other Board members. The evaluation exercise is carried out annually by way of a Board Assessment Checklist, which is circulated to the Board members for completion and thereafter, for the NC to review and determine the actions required to improve the corporate governance of the Company and the effectiveness of the Board and committees as a whole.

Principle 6 : Access to information

To assist the Board in its discharge of duties and responsibilities, all directors are provided with adequate information in a timely manner by the management on matters to be deliberated, thus facilitating informed decision-making. Directors are also updated on initiatives and developments for the Group's business whenever possible on an on-going basis.

The Board has separate and independent access to the Company's senior management and the Company Secretaries. At least one of the Company Secretaries attends the Board and Board committee meetings and is responsible for ensuring that board procedures are followed in accordance with the Memorandum and Articles of Association of the Company, and that applicable rules and regulations are complied with.

Management will, upon direction by the Board, get independent professional advice in furtherance of their duties, at the Company's expense.

Principle 7 : Remuneration Committee Principle 8 : Level and Mix of Remuneration Principle 9 : Disclosure on Remuneration

The Remuneration Committee ("RC") comprises one non-executive director and two independent non-executive directors, one of whom is also the Chairman of the Committee, namely:-

Teo Chee Seng (Chairman)	Non-Executive, Independent
John Lyn Hian Woon (Member)	Non-Executive, Independent
Dato' Jaya J B Tan (Member)	Non-Executive

The RC has adopted its terms of reference that describes the responsibilities of its members.

The role of the RC is to review and recommend remuneration policies and packages for directors and key executives and to disseminate proper information on transparency and accountability to shareholders on issues of remuneration of the executive directors of the Group and employees related to the executive directors and controlling shareholders of the Group.

RC's review covers all aspect of remuneration, including but not limited to directors' fees, salaries, allowances, bonuses, options, long-term incentive schemes, including share schemes and benefits in kind. Recommendations are made in consultation with the Chairman of the Board and submitted for endorsement by the entire Board. No director is involved in deciding his own remuneration.

Primary functions performed by RC:-

- Reviews and recommends to the Board, a framework of remuneration for the Board and key executives taking into account factors such as industry benchmark, the Group's and individual's performance;
- Reviews the level of remuneration that are appropriate to attract, retain and motivate the directors and key executives;
- Ensures adequate disclosure on Directors' remuneration;
- Reviews and recommends to the Board the terms for renewal of Directors' service contracts;
- Reviews and administers the Envictus Employee Share Option Scheme (the "Scheme") adopted by the Group and decides on the allocations and grants of options to eligible participants under the Scheme; and
- Recommends to the Board, the Executive Share Option Schemes or any long-term incentive schemes which may be set up from time to time and does all acts necessary in connection therewith.

Remuneration paid to directors and the CEO

Remuneration paid to the directors and the Group CEO for FY2015 is as follows:

		Directors'		
	Salary*	Fees	Bonus**	Remuneration
	%	%	%	%
Directors				
Below S\$250,000				
Dato' Jaya J B Tan	-	100.0	-	100.0
Datuk Goi Seng Hui	-	100.0	-	100.0
Mah Weng Choong	-	100.0	-	100.0
Teo Chee Seng	-	100.0	-	100.0
John Lyn Hian Woon	-	100.0	-	100.0
Group CEO				
S\$250,000 to below S\$500,000				
Dato' Kamal Y P Tan	76.9	-	23.1	100.0

Notes:

Inclusive of benefits in kind, allowances and provident funds, where applicable.

** On receipt basis during FY2015.

The Company has not disclosed exact details of the remuneration of each individual director and the Group CEO due to the competitive pressures in the talent market and maintaining confidentiality on such matters would be in the best interest of the Company.

The Board is of the view that it is not in the interests of the Company to disclose the remuneration of the top five key management personnel (who are not Directors) within the bands of S\$250,000 each, the breakdown of each individual's remuneration and the aggregate total remuneration due to the sensitive and confidential nature of such information and disadvantages that this might bring which among others include potential staff motivational and retention issues.

There is no termination, retirement and post-employment benefits granted to Directors, the Group CEO and the top five key management personnel.

Immediate family members of Directors

Ms Tan San May, the daughter of Dato' Kamal Y P Tan, the Group CEO, is employed by Eureka Capital Sdn Bhd, a subsidiary of the Group, as Chief Operating Officer (Bakery Division) and has received remuneration during FY2015 in that capacity. Her total remuneration for FY2015 was between \$\$50,000 and \$\$100,000, comprising 89.6% salary and 10.4% bonus.

Envictus Employee Share Option Scheme (ESOS)

The ESOS was approved and adopted by its members at an Extraordinary General Meeting held on 8 November 2004. Details of the Company's ESOS and the options granted can be found on the Report by Directors in this Annual Report.

Principle 10 : Accountability

The Board is accountable to shareholders for the stewardship of the Group. The Board updates shareholders on the operations and financial position of Envictus through quarterly and full-year results announcements as well as timely announcements of other matters as prescribed by the relevant rules and regulations. The Management is accountable to the Board by providing the Board with the necessary financial information for the discharge of its duties.

Presently, the Management presents to the AC the interim and full year results and the AC reports on the results to the Board for review and approval before releasing the results to the SGX-ST and public via SGXNET.

For the financial year under review, the Group CEO and Chief Financial Officer have provided assurance to the Board on the integrity of the financial statements of the Group. The Board has also provided a negative assurance to the shareholders on the quarterly results.

Principle 11 : Risk Management and Internal Controls

The Board reviews the risk profile of the Group and ensures that there are robust risk management policies and internal controls in place. The Board has delegated the responsibility for setting the direction of the Group's risk management strategy to Management. The key risks of the Group have been identified within a group risk framework that has been approved by Management and the AC.

The Group has established risk management policies, guidelines and control procedures to manage its exposure risks. Details of the various financial risk factors and the management of such risks are outlined in the financial statements.

It is part of the Board's role to ensure that there are adequate policies for risk management and internal controls and to oversee the effectiveness of the policies in achieving the Group's goals and objectives. The responsibility for implementing appropriate policies and procedures to achieve effective risk management and internal control is delegated to Senior Management. The overall framework established by Management is designed to enhance the soundness of the Group's financial reporting, risk management, compliance and internal control systems which include:

- Process improvement initiatives undertaken by business units;
- Benchmarking against key risk indicators, such as loss reporting, exceptions reporting and management reviews;
- Annual formal evaluations by the heads of business units and support functions on the soundness, effectiveness and efficiency of the financial reporting, risk management;
- Compliance and internal control systems in their respective areas of responsibility;
- Implementation of formal policies and procedures relating to the delegation of authority;
- Involvement of experienced and suitably qualified employees who take responsibility for important business functions; and
- Segregation of key functions that are deemed incompatible and that may give rise to a risk that errors or irregularities may not be promptly detected.

There is an organisational structure with clearly drawn lines of accountability and delegation of authority. There are documented procedures in place that cover management accounting, financial reporting, investment appraisal, information systems security, compliance and other risk management issues.

The systems that are in place are intended to provide guidance in managing and mitigating the business risks in safeguarding assets, maintenance of proper accounting records, the reliability of financial information, compliance with applicable legislation and best practice, but not absolute assurance against misstatements or losses.

A system of internal controls has been implemented for all companies within the Group. The controls are designed to provide reasonable assurance that assets are safeguarded, operational controls are in place, business risks are suitably protected, proper accounting records are maintained and financial information used within the business and for publication is accurate and reliable.

While no system can provide absolute assurance against loss or misstatement, Management, in designing the controls, had taken into account the business risk, its likelihood of occurrence and the cost of protection. During the financial year, the AC, on behalf of the Board, has reviewed the effectiveness of the various systems in place by Management and is satisfied that there are adequate internal controls in the Group.

For the financial year under review, the Group CEO and the CFO have provided assurance to the Board that the system of risk management and internal controls in place within the Group is adequate and effective in addressing the material risks in the Group in its current business environment including material financial operational, compliance and information technology risks.

During the financial year, the Board with the concurrence of AC, after carrying out a review, is of the opinion that the internal controls of the Group are adequate and effective to address operational, financial, compliance risks and technology risks. In arriving at the opinion, the Board is of the view that the internal controls of the Group have reasonable assurance about achieving the effectiveness and efficiency of operations; reliability of financial reporting; and compliance with applicable laws and regulations.

Principle 12 : Audit Committee

The Audit Committee ("AC") comprises one non-executive director and two independent non-executive directors, one of whom is also the Chairman of the Committee. The members of the AC as at the date of this report are as follows:-

John Lyn Hian Woon (Chairman)	Non-Executive, Independent
Teo Chee Seng (Member)	Non-Executive, Independent
Dato' Jaya J B Tan (Member)	Non-Executive

The principal responsibility of the AC is to assist the Board in maintaining a high standard of corporate governance, particularly by providing an independent review of the group's material internal controls, including financial, operational, compliance and risk management controls at least once annually, to safeguard the Company's assets and maintain adequate accounting records, with the overall objective of ensuring that the management creates and maintains an effective control environment in the Group.

The AC has authority to investigate any matter within its terms of reference, gain full access to and co-operation by management, exercise full discretion to invite any Director or executive officer to attend its meetings, and gain reasonable access to resources to enable it to discharge its function properly.

The AC will meet with the external auditors without the presence of the management at least once a year to review the scope and results of the audit and its cost effectiveness, as well as the independence and objectivity of the external auditors.

The AC has undertaken a review of all non-audit services provided by the external auditors and is of the opinion that the provision of such services would not affect the independence of the auditors.

The members of the AC will carry out their duties in accordance with the terms of reference which include the following:-

- review and discuss with external auditors before the audit commences, the nature and scope of the audit to ensure co-ordination where more than one audit firm is involved;
- review audit plans and results of the audit performed by the external auditors and ensure adequacy of the Group's system of accounting controls;
- review the financial statements of the Company and the consolidated financial statements of the Group before their submission to the Board of Directors;
- review the announcements of the financial results;
- review the Company's material internal controls;
- review independence of the external auditors;
- review interested person transactions;
- review the co-operation given by the management to the external auditors; and
- review the appointment and re-appointment of external auditors of the Company's and the audit fees.

The external auditors have full access to the AC who has the express power to conduct or authorize investigations into any matters within its terms of reference. Minutes of the AC meetings will be regularly submitted to the Board for its information.

The AC has reviewed the Group's risk assessment, and based on the audit reports and management controls in place, is satisfied that there are adequate internal controls in the Group.

For the year under review, the Group has accrued an aggregate amount of audit fees of RM669,367, comprising audit fees of RM218,224 paid to auditors of the Company; and RM389,122 and RM62,021 paid to other auditors for audit fees and non-audit service fees, respectively. In compliance with Rule 1207(6) of the Listing Manual issued by Singapore Exchange Securities Trading Limited, the AC confirmed that it has undertaken a review of all non-audit services provided by the Auditors and they would not, in the AC's opinion, affect the independence of the Auditors.

The Group has complied with Rules 712 and 715 of the Listing Manual in relation to its Auditors.

The AC has recommended the re-appointment of BDO LLP as Auditors for the ensuing year, subject to shareholders' approval at the forthcoming AGM.

The Group has put in place a whistle-blowing policy, endorsed by the AC where employees of the Group and outside parties may, in confidence, raise concerns about possible corporate improprieties in matters of financial reporting or other matters and to ensure that arrangements are in place for the independent investigations of such matters and for appropriate follow up actions.

Principle 13 : Internal Audit

The Board is cognizant of its responsibility for maintaining a sound system of internal controls to safeguard the shareholders' investment and the Group's assets and business. Envictus' auditors, BDO LLP, carry out, in the course of their statutory audit, a review of the effectiveness of Envictus' material internal controls, annually to the extent of their scope laid out in their audit plan.

Material non-compliance and internal control weaknesses noted during their audit and the auditors' recommendations are reported to the AC members. For FY2015, the Board with the concurrence of the AC, is of the view that the system of internal controls that has been maintained by Envictus' management throughout the financial year is adequate to meet the needs of Envictus having addressed the financial, operational and compliance risks. In an effort to further enhance and improve the Group's system of internal controls and risk management policies, internal audit will be carried out on companies within the group identified by the AC and deemed necessary. The internal audit will be outsourced by the Company.

Principle 14 : Shareholder rights

The Board ensures that all shareholders are treated fairly and equitably and the rights of all shareholders, including non-controlling shareholders, are protected.

Principle 15 : Communication with Shareholders

The Group is committed to maintaining high standards of corporate disclosure and transparency. The Board is mindful of the obligation to provide regular, effective and fair communication with shareholders. Besides the release of half-year results, the Company ensures timely and adequate disclosure of information on material matters required by SGX-ST's Listing Manual through announcements via the SGXNET. The Company does not practice selective disclosure of material information.

The Group welcomes the views of shareholders on matters affecting the Company, whether at shareholders' meetings or on an ad-hoc basis.

Dividend Policy

The Company does not have an official dividend policy. The amount of dividends, if any declared, will depend on the factors that include the Group's profit level, cash position and future cash needs. For FY2015, the Company did not declare any dividend.

Principle 16 : Conduct of shareholders meetings

The Group strongly encourages shareholders' participation during the AGM. All shareholders are welcome to attend the AGM. The Board of Directors, AC members and other committee members, chief financial officer, auditors and the Company Secretary/Secretaries will be present and are available to address any questions from shareholders regarding the Group and its businesses.

Material Contracts

On 5 November 2015, the Company acquired a total of 92,676,600 ordinary shares, representing 11.43% of the issued and paid-up share capital of Yamada Green Resources Limited ("Yamada") for an aggregate consideration of S\$10,499,974.88 through open market and off-market transactions. Datuk Goi Seng Hui, the Non-Executive Chairman of the Company, disclosed to the Company that he is a substantial shareholder of Yamada and is deemed interested in 63,000,000 shares representing approximately 7.77% of the issued share capital of Yamada held by Hydrex International Pte Ltd. He also disclosed that he is deemed interested in 19,184,500 shares held by Oregold Pte Ltd and has a direct interest of 1,000,000 shares representing a total of deemed and direct interest of approximately 11.84% of the equity interest of Global Yellow Pages Limited, a substantial shareholder of Yamada.

Save as disclosed above, there were no material contracts entered into between the Company or any of its subsidiaries involving the interests of any director, chief executive officer or controlling shareholder, which are either subsisting at the end of the financial year or, if not then subsisting, entered into since the end of the previous financial year up to the date of the financial statements except for related party transactions and director's remuneration as disclosed in the financial statements.

Interested Person Transactions

Envictus has established procedures to ensure that all transactions with interested persons are reported on a timely manner to the AC and that the transactions are at arm's length basis. All interested person transactions are subject to review by the AC to ensure compliance with the established procedures.

The aggregate value of interested person transactions entered into during the year were as follows:-

Name of Interested Person	Aggregate value of all interested person transactions during the financial year under review (excluding transactions less than S\$100,000 and transactions conducted under shareholders' mandate pursuant to Rule 920 of the SGX Listing Manual)	Aggregate value of all interested person transactions conducted under shareholders' mandate pursuant to Rule 920 of the SGX Listing Manual (excluding transactions less than S\$100,000)
	RM	RM
Perinsu (Broker Insurans) Sdn Bhd		
- Insurance premium	1,515,408	
	(or approximately S\$555,542)	-

- Advertising and promotion income	65,641	
	(or approximately S\$24,064)	-

Based on average exchange rate for the year ended 30 September 2015 of S\$1 = RM2.7278

Dealings in Securities

The Company has adopted policies in relation to dealings in the Company securities which pursuant to the SGX-ST Best Practices Guide that are applicable to all its Directors and officers. The Company and its officer should not deal with the Company's shares during the period commencing two weeks before the quarter results announcement for each of the first three quarters of the financial year and one month before the full-year results announcement, as the case may be, and ending on the date of the announcements of the relevant results.

Directors and key executives are also expected to observe the insider-trading laws at all times even when dealing with securities within the permitted trading period and are not to deal in the Company's securities on short-term considerations.

The Company has complied with Rule 1207(19) of the Listing Manual of the SGX-ST for the financial year ended 30 September 2015.

FINANCIAL STATEMENTS

- 50 Directors' Statement
- 54 Independent Auditor's Report
- 55 Statements of Financial Position
- 57 Consolidated Statement of Comprehensive Income
- 59 Consolidated Statements of Changes in Equity
- 61 Statements of Changes in Equity
- 62 Consolidated Statement of Cash Flows
- **64** Notes to the Financial Statements

1. OPINION OF THE DIRECTORS

In the opinion of the Board of Directors,

- (a) the consolidated financial statements of the Group and the statement of financial position of the Company together with the notes thereon are drawn up so as to give a true and fair view of the financial position of the Group and of the Company as at 30 September 2015, and of the financial performance, changes in equity and cash flows of the Group and changes in equity of the Company for the financial year then ended; and
- (b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

2. DIRECTORS

The Directors of the Company in office at the date of this report are:

Dato' Jaya J B Tan(Non-Executive Chairman)Datuk Goi Seng Hui(Non-Executive Vice-Chairman)Dato' Kamal Y P Tan(Group Chief Executive Officer)Mah Weng Choong(Non-Executive Director)John Lyn Hian Woon(Independent Director)Teo Chee Seng(Independent Director)

3. SHARE OPTIONS

At an Extraordinary General Meeting held on 8 November 2004, the shareholders approved the Envictus Employee Share Options Scheme ("ESOS") granting share options to employees and Directors of the Group, including the controlling shareholder, namely Dato' Kamal Y P Tan.

On 22 January 2010, the Company's shareholders approved the amendments to the rules of the ESOS as contained in the Circular to Shareholders dated 5 January 2010 to be in line with the relevant laws and regulations of the Listing Manual following the transfer of the listing status from Catalist Board to the Main Board of the Singapore Exchange Securities Trading Limited ("SGX-ST") as well as to better clarify the terms and conditions of the ESOS.

On 24 September 2010, the Company's shareholders approved the participation of the other controlling shareholders, namely Dato' Jaya J B Tan and Tan Yet Meng, in the ESOS.

The Remuneration Committee is responsible for administering the ESOS. As at the date of the report, the members of the Remuneration Committee are Teo Chee Seng, John Lyn Hian Woon and Dato' Jaya J B Tan.

Options granted pursuant to the ESOS are in respect of ordinary shares of the Company. Options exercised and cancelled during the financial year and options outstanding as at the end of the financial year under the ESOS were as follows:

3. SHARE OPTIONS (CONTINUED)

Date of grant	Balance at 01.10.2014	Adjustment/ Granted	Exercised	Lapsed/ Cancelled	Balance at 30.09.2015	Exercise price	Exercise period
10.02.2010	283,000	-	-	-	283,000	S\$0.164*	10.02.2012 to 09.02.2017
13.10.2010	11,890,000	-	-	-	11,890,000	S\$0.400	13.10.2012 to 12.10.2017
_	12,173,000	-	-	-	12,173,000		

* Number of valid options and exercise price as at 12 October 2010 has been adjusted for a bonus issue of one for one declared on that date.

All of the above options were granted at a discount of 20% of the Market Price. The Market Price is equal to the weighted average price per share, calculated based on the total value of transactions in the share (the sum of each transacted price multiplied by the respective volume) divided by the volume transacted for the last three traded market days immediately preceding the offer date of that option, as determined by reference to the daily official list or other publication published by the SGX-ST and rounded up to the nearest whole cent in the event of fractional prices.

The information on Directors participating in the option schemes are as follows:

Name	Options adjusted/ granted during financial year	Aggregate options granted since commencement of the plan to 30.09.2015	Aggregate options exercised since commencement of the plan to 30.09.2015	Aggregate options exercised since commencement of the plan to 30.09.2014
Directors who are also controlling shareholders				
Dato' Kamal Y P Tan	-	8,000,000	5,500,000	5,500,000
Dato' Jaya J B Tan	-	6,000,000	3,900,000	3,900,000
Director Mah Weng Choong	-	4,000,000	2,090,000	2,090,000

There were no share options granted in the Company or its subsidiaries during the financial year under review.

These options do not entitle the holder to participate by virtue of the options, in any share issue of any other corporations.

4. ARRANGEMENTS TO ENABLE DIRECTORS TO ACQUIRE SHARES OR DEBENTURES

Neither at the end of nor at any time during the financial year was the Company a party to any arrangement whose object was to enable the Directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate, except as disclosed in paragraph 3 above.

5. DIRECTORS' INTERESTS IN SHARES OR DEBENTURES

The Directors of the Company holding office at the end of the financial year had no interests in the shares or debentures of the Company and its related corporations as recorded in the Register of Directors' Shareholdings kept by the Company under Section 164 of the Singapore Companies Act, Chapter 50 (the "Act"), except as follows:

		Shareholdings registered in the name of Directors and Nominees		Shareholdings in which Directors are deemed to have an interest		
	Balance as at 21.10.2015	Balance as at 30.09.2015	Balance as at 01.10.2014	Balance as at 21.10.2015	Balance as at 30.09.2015	Balance as at 01.10.2014

	Shareholdings registered in the name of Directors and Nominees					

	Balance as at 21.10.2015	Balance as at 30.09.2015	Balance as at 01.10.2014		
The Company		pursuant to Employe subscribe for ordinar	,		
Dato' Jaya J B Tan	2,100,000	2,100,000	2,100,000		
Dato' Kamal Y P Tan	2,500,000	2,500,000	2,500,000		
Mah Weng Choong	1,910,000	1,910,000	1,910,000		

By virtue of Section 7 of the Act, Dato' Jaya J B Tan and Dato' Kamal Y P Tan are deemed to have an interest in all related corporations of the Company.

6. AUDIT COMMITTEE

The Audit Committee ("AC") of the Company is chaired by John Lyn Hian Woon (an independent Director), and includes Teo Chee Seng (an independent director) and Dato' Jaya J B Tan who are all non-executive directors. The AC has met five times since the last Annual General Meeting ("AGM") and has carried out its functions in accordance with section 201B(5), including reviewing the following, where relevant, with the executive Directors and external auditors of the Company:

- (a) the audit plans of the external auditors;
- (b) the Company's and the Group's financial and operating results and accounting policies;
- (c) the statement of financial position and statement of changes in equity of the Company and the consolidated financial statements of the Group and external auditor's report on those financial statements before their submission to the Directors of the Company;

DIRECTORS' STATEMENT

6. AUDIT COMMITTEE (CONTINUED)

- (d) the quarterly, half-yearly and annual announcements as well as the related press releases on the results and financial position of the Company and the Group;
- (e) the co-operation and assistance given by the management to the Company's external auditor;
- (f) the re-appointment of the external auditor of the Company;
- (g) review and approve interested person transactions;
- (h) review potential conflict of interests, if any;
- (i) undertake such other reviews and projects as may be requested by the Board and will report to the Board its findings from time to time on matters arising and requiring the attention of the AC; and
- (j) generally undertake such other functions and duties as may be required by statute or the SGX-ST Listing Manual, and by such amendments made thereto from time to time.

The audit committee has full access to and has the co-operation of the management and has been given the resources required for it to discharge its function properly. It also has full discretion to invite any Director and executive officer to attend its meetings. The external auditors have unrestricted access to the audit committee.

The audit committee has recommended to the Directors the nomination of BDO LLP for re-appointment as external auditor of the Company at the forthcoming AGM of the Company.

7. INDEPENDENT AUDITOR

The independent auditor, BDO LLP, has expressed its willingness to accept re-appointment.

On behalf of the Board of Directors

Dato' Jaya J B Tan Non-Executive Chairman

8 December 2015

Dato' Kamal Y P Tan Group Chief Executive Officer

INDEPENDENT AUDITOR'S REPORT to the members of envictus international holdings limited

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of Envictus International Holdings Limited (the "Company") and its subsidiaries (the "Group") as set out on pages 55 to 137, which comprise the consolidated statement of financial position of the Group and the statement of financial position of the Company as at 30 September 2015, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows of the Group and statement of changes in equity of the Company for the financial year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Singapore Companies Act, Chapter 50 (the "Act") and Singapore Financial Reporting Standards, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Singapore Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company are properly drawn up in accordance with the provisions of the Act and Singapore Financial Reporting Standards so as to give a true and fair view of the financial position of the Group and of the Company as at 30 September 2015 and of the financial performance, changes in equity and cash flows of the Group and changes in equity of the Company for the financial year ended on that date.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In our opinion, the accounting and other records required by the Act to be kept by the Company and by the subsidiary corporation incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

BDO LLP Public Accountants and Chartered Accountants

Effect of exchange rate changes		15,964	21
Cash and cash equivalents at end of the financial year	13	96,471	144,047

NOTES TO THE FINANCIAL STATEMENTS

These notes form an integral part of and should be read in conjunction with the financial statements.

1. GENERAL CORPORATE INFORMATION

Envictus International Holdings Limited (the "Company") is a limited liability company incorporated and domiciled in Singapore with its registered office at 4 Shenton Way, #17-01 SGX Centre II, Singapore 068807. The Company's registration number is 200313131Z. The principal place of business is located at 20 Maxwell Road, #12-05 Maxwell House, Singapore 069113. The Company is listed on the Singapore Exchange Securities Trading Limited (SGX-ST).

The principal activity of the Company is that of an investment holding company.

The principal activities of the subsidiaries are set out in Note 6 to the financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation of financial statements

The financial statements have been prepared in accordance with the provisions of the Singapore Companies Act, Chapter 50 and Singapore Financial Reporting Standards ("FRS") including related interpretations of FRS ("INT FRS") and are prepared under the historical cost convention, except as disclosed in the accounting policies below.

The individual financial statements of each Group entity are measured and presented in the currency of the primary economic environment in which the entity operates ("functional currency"). The functional currency of the Company is Singapore Dollar. However, as the Group's significant operations are in Malaysia, the consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company are presented in Ringgit Malaysia ("RM") which is the functional currency and the presentation currency of the significant components in Malaysia.

All financial information presented in RM has been rounded to the nearest thousand ("RM'000") as indicated, unless otherwise stated.

The preparation of financial statements in conformity with FRS requires management to make judgements, estimates and assumptions that affect the Group's application of accounting policies and reported amounts of assets, liabilities, revenue and expenses. Although these estimates are based on management's best knowledge of current events and actions, actual results may differ from those estimates. The areas where such judgements or estimates have the most significant effect on the financial statements are disclosed in Note 3.

In the current financial year, the Group has adopted all the new or revised FRS and INT FRS that are relevant to their operations and effective for the current financial year. The adoption of these new or revised FRS and INT FRS did not result in any substantial changes to the Group's and the Company's accounting policies and had no material effect on the amounts reported for the current or prior years, except as disclosed below:

FRS 112 Disclosure of Interests in Other Entities

FRS 112 prescribes comprehensive disclosure requirements for all types of interests in other entities. It requires an entity to disclose information that helps users to assess the nature and financial effects of relationships with subsidiaries, associates, joint arrangements and unconsolidated structured entities. As the new standard affects only disclosure, there is no effect on the Group's financial position or performance. Certain new disclosures are included in these financial statements following adoption of FRS 112 on 1 October 2014.

2.1 Basis of preparation of financial statements (Continued)

Amendments to FRS 36 - Recoverable Amount Disclosures for Non-financial Assets

The amendments to FRS 36 were issued to remove the requirement to disclose the recoverable amount of any cashgenerating unit for which the carrying amount of goodwill or intangible assets with an indefinite useful life is significant compared to the total carrying amount of goodwill or intangible assets with an indefinite useful life, and instead require disclosure about recoverable amount only when there is a significant impairment or reversal of an impairment, as well as to require additional disclosures when recoverable amount is based on fair value less costs of disposal.

The Group has adopted the amendments to FRS 36 from 1 October 2014, and reflected the relevant amended disclosure requirements in these financial statements. There is no impact on the Group's financial position or financial performance.

FRS issued but not yet effective

As at the date of the authorisation of these financial statements, the following FRS that may be relevant to the Group were issued but not yet effective, and have not been adopted early in these financial statements:

		Effective date (annual periods beginning on or after)
FRS 1 (Amendments)	: Disclosure Initiative	1 January 2016
FRS 16 and FRS 38 (Amendments)	: Clarification of Acceptable Methods of Depreciation and Amortisation	1 January 2016
FRS 27 (Amendments)	: Equity Method in Separate Financial Statements	1 January 2016
FRS 109	: Financial Instruments	1 January 2018
FRS 115 Improvements to FRSs (November 2014)	: Revenue from Contracts with Customers	1 January 2018
FRS 107 (Amendments)	: Financial Instruments: Disclosures	1 January 2016

Consequential amendments were also made to various standards as a result of these new or revised standards.

The Group expect that the adoption of the above FRS in future periods, if applicable, will have no material impact on the financial statements in the period of initial adoption, except as disclosed below.

2.1 Basis of preparation of financial statements (Continued)

FRS issued but not yet effective (Continued)

FRS 109 Financial Instruments

FRS 109 supersedes FRS 39 *Financial Instruments: Recognition and Measurement* with new requirements for the classification and measurement of financial assets and liabilities, impairment of financial assets and hedge accounting.

Under FRS 109, financial assets are classified into financial assets measured at fair value or at amortised cost depending on the Group's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. Fair value gains or losses will be recognised in profit or loss except for certain equity investments, for which the Group will have a choice to recognise the gains and losses in other comprehensive income. A third measurement category has been added for debt instruments – fair value through other comprehensive income. This measurement category applies to debt instruments that meet the Solely Payments of Principal and Interest contractual cash flow characteristics test and where the Group is holding the debt instrument to both collect the contractual cash flows and to sell the financial assets.

FRS 109 carries forward the recognition, classification and measurement requirements for financial liabilities from FRS 39, except for financial liabilities that are designated at fair value through profit or loss, where the amount of change in fair value attributable to change in credit risk of that liability is recognised in other comprehensive income unless that would create or enlarge an accounting mismatch. In addition, FRS 109 retains the requirements in FRS 39 for de-recognition of financial assets and financial liabilities.

FRS 109 introduces a new forward-looking impairment model based on expected credit losses to replace the incurred loss model in FRS 39. This determines the recognition of impairment provisions as well as interest revenue. For financial assets at amortised cost or fair value through other comprehensive income, the Group will now always recognise (at a minimum) 12 months of expected losses in profit or loss. Lifetime expected losses will be recognised on these assets when there is a significant increase in credit risk after initial recognition.

FRS 109 also introduces a new hedge accounting model designed to allow entities to better reflect their risk management activities in their financial statements.

The Group plans to adopt FRS 109 in the financial year beginning on 1 October 2018 with retrospective effect in accordance with the transitional provisions. There may be a potentially significant impact on the accounting for financial instruments on initial adoption. Due to the recent release of this standard, the Group has not yet made a detailed assessment of the impact of this standard, however the Group will be required to reassess the classification and measurement of financial assets, particularly those currently classified as available-for-sale, and the new impairment requirements are expected to result in changes for impairment provisions on trade and other receivables and other financial assets not measured at fair value through profit or loss.

FRS 115 Revenue from Contracts with Customers

FRS 115 introduces a comprehensive model that applies to revenue from contracts with customers and supersedes all existing revenue recognition requirements under FRS. The model features a five-step analysis to determine whether, how much and when revenue is recognised, and two approaches for recognising revenue: at a point in time or over time. The core principle is that an entity recognises revenue when control over promised goods or services is transferred to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. FRS 115 also introduces extensive qualitative and quantitative disclosure requirements which aim to enable users of the financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers.

On initial adoption of this standard there may be a potentially significant impact on the timing and profile of revenue recognition of the Group. The Group is in the process of performing a detailed assessment of the impact of this standard. The Group plans to adopt the standard in the financial year beginning on 1 October 2018 with either full or modified retrospective effect in accordance with the transitional provisions, and will include the required additional disclosures in its financial statements for that financial year.

2.2 Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries. Subsidiaries are entities over which the Group has control. The Group controls on investee if the Group has power over the investee, exposure to variable returns from the investee, and the ability to use its power to affect those variable returns. Control is reassessed whenever facts and circumstances indicate that there may be a change in any of these elements of control.

Subsidiaries are consolidated from the date on which control is transferred to the Group up to the effective date on which control ceases, as appropriate.

In preparing the consolidated financial statements, transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated in the same way as unrealised gains, but only to the extent that there is no impairment.

The financial statements of the subsidiaries are prepared for the same reporting date as the Company, using consistent accounting policies. Where necessary, accounting policies of subsidiaries are changed to ensure consistency with the policies adopted by the Group.

Non-controlling interests in subsidiaries relate to the equity in subsidiaries which is not attributable directly or indirectly to the owners of the parent. They are shown separately in the consolidated statements of comprehensive income, financial position and changes in equity.

Non-controlling interests in the acquiree that are a present ownership interest and entitle its holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the fair value, of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-by-acquisition basis. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity. Total comprehensive income is attributed to non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary it derecognises the assets and liabilities of the subsidiary and any noncontrolling interest, the gain or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. Amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for (i.e. reclassified to consolidated statement of comprehensive income or transferred directly to retained earnings) in the same manner as would be required if the relevant assets or liabilities were disposed of. The fair value of any investments retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under FRS 39 *Financial Instruments: Recognition and Measurement* or, when applicable, the cost on initial recognition of an investment in an associate or joint venture.

In the separate financial statements of the Company, investments in subsidiaries are stated at cost, less any accumulated impairment loss that has been recognised in the profit or loss.

2.3 Business combination

Business combination from 1 October 2009

The acquisition of subsidiaries and businesses is accounted for using the acquisition method. The cost of the acquisition is measured at the aggregate of the fair values, at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in the consolidated statement of comprehensive income as incurred.

The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under FRS 103 are recognised at their fair values at the acquisition date.

Where a business combination is achieved in stages, the Group's previously held interests in the acquired entity are remeasured to fair value at the acquisition date (i.e. the date the Group attains control) and the resulting gain or loss, if any, is recognised in the consolidated statement of comprehensive income. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to the consolidated statement of comprehensive income where such treatment would be appropriate if that interest were disposed of.

Goodwill arising on acquisition is recognised as an asset at the acquisition date and initially measured at cost, being the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held equity interest (if any) in the entity over net of the acquisition-date fair value amounts of the identifiable assets acquired and the liabilities and contingent liabilities assumed.

If, after reassessment, the Group's interest in the net fair value of the acquiree's identifiable net assets exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held equity interest in the acquiree (if any), the excess is recognised immediately in consolidated statement of comprehensive income as a bargain purchase gain.

Business combination before 1 October 2009

In comparison to the above mentioned requirements, the following differences applied:

Business combinations were accounted for by applying the purchase method. Transaction costs directly attributable to the acquisition formed part of the acquisition costs. The non-controlling interest (formerly known as minority interest) was measured at the proportionate share of the acquirees' identifiable net assets.

Business combinations achieved in stages were accounted for as separate steps. Adjustments to those fair values relating to previously held interests were treated as a revaluation and recognised in equity.

Contingent consideration was recognised if, and only if, the Group had a present obligation, the economic outflow was probable and a reliable estimate was determinable. Subsequent measurements to the contingent consideration affected goodwill.

2.4 Property, plant and equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and any impairment losses.

The cost of property, plant and equipment includes its purchase price and any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Dismantlement, removal or restoration costs are included as part of the cost of property, plant and equipment if the obligation for dismantlement, removal or restoration is incurred as a consequence of acquiring or using the property, plant and equipment.

2.4 Property, plant and equipment (Continued)

Subsequent expenditure relating to the property, plant and equipment added to the carrying amount of the asset when it is probable that the future economic benefits, in excess of the standard of performance of the asset before the expenditure was made, will flow to the Group, and the cost can be reliably measured. All other costs of servicing are recognised in the consolidated statement of comprehensive income as expenses when incurred.

On disposal of an item of property, plant and equipment, the difference between the sales proceeds and the carrying amount is recognised in the profit or loss.

Depreciation is calculated on the straight-line method so as to write off the depreciable amount of the property, plant and equipment over their estimated useful lives as follows:

Factory buildings20 - 50Plant and machinery5 - 20Cold room and freezer5 - 10Lab equipment5 - 10
Cold room and freezer 5 - 10
Lab equipment 5 - 10
Furniture and fittings 5 - 10
Store equipment 5
Renovation 5 - 50
Motor vehicles 3.3 - 6.7
Office equipment 5 - 14.9
Computer system 3 - 5

Assets under construction represent property, plant and equipment under construction, which is stated at cost less any impairment loss and is not depreciated. Assets under construction are reclassified to appropriate categories of property, plant and equipment when completed and ready for use and depreciation will commence at that time.

No depreciation is provided on freehold land.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The estimated useful lives, residual values and depreciation methods are reviewed, and adjusted as appropriate, at the end of each financial year.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, if there is no certainty that the lessee will obtain ownership by the end of the lease term, the asset shall be fully depreciated over the shorter of the lease term and its useful life.

The gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the profit or loss.

Fully depreciated property, plant and equipment are retained in the financial statements until they are no longer in use.

2.5 Intangible assets

(i) Goodwill

Goodwill arising on the acquisition of a subsidiary represents the excess of the consideration transferred (see Note 2.3), the amount of any non-controlling interests in the acquiree over the acquisition date fair value of identifiable assets, liabilities and contingent liabilities of the subsidiary at the date of acquisition. Goodwill is initially recognised as an asset at cost and is subsequently measured at cost less any accumulated impairment losses.

On disposal of a subsidiary, the attributable amount of goodwill is included in the determination of gain or loss on disposal.

(ii) Patents and trademarks

Patents and trademarks acquired by the Group have indefinite useful lives and are initially measured at cost less any accumulated impairment losses.

(iii) Product licenses

Product licenses are stated at cost less accumulated amortisation and any impairment losses. The useful life of the product licenses is 5 years, representing the period that benefits are expected to be received.

(iv) Computer software

Acquired computer software licenses are initially capitalised at cost which includes the purchase price (net of any discounts and rebates) and other directly attributable costs of preparing the software for its intended use. Direct expenditure which enhances or extends the performance of computer software beyond its specifications and which can be reliably measured is added to the original costs of the software. Costs associated with maintaining computer software are recognised as an expense as incurred.

Computer software licenses are subsequently carried at cost less accumulated amortisation and any accumulated impairment losses. These costs are amortised to the consolidated statement of comprehensive income using the straight-line method over their estimated useful lives of 5 years.

(v) Franchise fees

Franchise fees are initially capitalised at cost and subsequently measured at cost less accumulated amortisation and any accumulated impairment losses. Amortisation is calculated using the straight line method to allocate the cost over their estimated useful lives of 10 to 20 years.

The amortisation period and amortisation method of intangible assets other than goodwill, patents and trademarks are reviewed at least at the end of each financial year. The effects of any revision are recognised in the consolidated statement of comprehensive income when the changes arise.
2.6 Impairment of non-financial assets

Non-financial assets other than goodwill

The carrying amounts of the Group's non-financial assets are reviewed at the end of each financial year to determine whether there is any indication of impairment loss and whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If any such indication exists, or when annual impairment testing for an asset (intangible assets with indefinite useful life and intangible assets not yet available for use) is required, the recoverable amounts are estimated.

An impairment loss is recognised whenever the carrying amount of the asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that are largely independent of other assets and groups of assets. Impairment loss is recognised in the consolidated statement of comprehensive income unless it reverses a previous revaluation, credited to equity, in which case it is charged to equity.

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to sell and its value in use. Recoverable amount is determined for individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. The fair value less cost to sell is the amount obtainable from the sale of an asset or cash-generating unit in an arm's length transaction between knowledgeable, willing parties, less costs of disposal. Value in use is the present value of estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life, discounted at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash-generating unit for which the future cash flow estimates have not been adjusted.

An assessment is made at the end of each financial year as to whether there is any indication that an impairment loss recognised in prior periods for an asset may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. An impairment loss recognised in prior periods is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment in value was recognised. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss has been recognised. Reversals of impairment loss are recognised in the consolidated statement of comprehensive income unless the asset is carried at revalued amount, in which case the reversal in excess of impairment loss recognised in the consolidated statement of comprehensive income unless the depreciation or amortisation increase. After such a reversal, the depreciation or amortisation is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

Goodwill

Goodwill is tested annually for impairment, as well as when there is any indication that the goodwill may be impaired.

For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating unit expected to benefit from the synergies of the business combination. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit including the goodwill, the impairment loss is recognised in the consolidated statement of comprehensive income and allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit on a pro-rata basis of the carrying amount of each asset in the unit. An impairment loss recognised for goodwill is not reversed in a subsequent period.

2.7 Inventories

Inventories are stated at the lower of cost and net realisable value.

Cost of raw materials, packing materials and finished goods are determined on the "first-in, first-out" basis and comprise original cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost of finished goods and work-in-progress includes cost of raw materials, direct labour, other direct costs and manufacturing overheads (based on normal operating capacity) but excludes borrowing cost.

Net realisable value is the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distribution, at which the inventories can be realised in the normal course of business after allowing for the costs of realisation. Allowance is made for obsolete, slow-moving and defective inventories.

2.8 Cash and bank balances

Cash and bank balances in the statements of financial position comprise cash on hand, demand deposit and other shortterm highly liquid investments which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash and bank balances, fixed deposit and excluding any deposits pledged.

2.9 Financial assets

All financial assets are recognised on a trade date where the purchase of a financial asset is under a contract whose terms require delivery of the financial asset within the timeframe established by the market concerned, and are initially measured at fair value, plus transaction costs, except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value. After initial recognition, loans and receivables are carried at amortised cost using the effective interest method, less impairment loss, if any.

The Group and the Company classifies their financial assets as loans and receivables, available-for-sale financial assets and financial assets at fair value through profit or loss. The classification depends on the nature and purpose for which the assets were acquired. Management determines the classification of the financial assets at initial recognition and re-evaluates this designation at the end of the financial year where allowed and appropriate.

(i) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables comprise "trade and other receivables excluding prepayments, advances to suppliers and deposits paid for property, plant and equipment", "fixed deposit" and "cash and bank balances" in the statements of financial position.

(ii) Financial assets at fair value through profit or loss ("FVTPL")

Financial assets are classified as FVTPL if the financial asset is either held for trading or is designated as such upon initial recognition.

A financial asset is classified as held-for-trading investment if it has been acquired principally for the purpose of selling in the short term; or if it is part of an identified portfolio of financial instruments with a recent actual pattern of shortterm profit-taking and which is managed by the Group and the Company; or if it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee contract.

A financial asset which is not classified as held-for-trading may be designated as FVTPL upon initial recognition if the financial asset is managed as part of a group of financial instruments, with its performance being evaluated on a fair value basis, in accordance with the Group's and the Company's documented risk management or investment strategy, and information about the grouping is provided internally on that basis.

FVTPL are stated at fair value, with any resultant gain or loss recognised in the consolidated statement of comprehensive income. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial assets.

(iii) Available-for-sale financial assets ("AFS")

Certain shares held by the Group are classified as AFS if they are not classified in any of the other categories. Subsequent to initial recognition, they are measured at fair value and changes therein are recognised in other comprehensive income and accumulated in the fair value reserve.

2.9 Financial assets (Continued)

Derecognition

Financial assets are derecognised when the contractual rights to receive cash flows from the financial assets have expired or have been transferred and the Group and the Company have transferred substantially all risks and rewards of ownership of the asset to another entity.

On derecognition, any difference between the carrying amount and the sum of proceeds received is recognised in the consolidated statement of comprehensive income. Where the sale relates to an available-for-sale financial asset, the cumulative gain or loss previously recognised in the fair value reserve is included in the consolidated statement of comprehensive income for the period.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and allocating the interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial instrument, or where appropriate, a shorter period, to the net carrying amount of the financial instrument. Income and expense are recognised on an effective interest basis for debt instruments other than those financial instruments "at fair value through profit or loss".

Impairment

The Group assess at the end of each financial year whether there is objective evidence that a financial asset or a group of financial assets other than financial assets at FVTPL, is impaired and recognise as allowance for impairment when such evidence exists.

(i) Loans and receivables

An allowance for impairment of loans and receivables is recognised when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. The amount of allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account. The amount of the loss is recognised in the consolidated statement of comprehensive income.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss shall be reversed through profit or loss to the extent the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

(ii) Available-for-sale financial assets

If an available-for-sale financial asset is impaired, an amount comprising the difference between its cost (net of any principal repayment and amortisation) and its current fair value, less any impairment loss previously recognised in the consolidated statement of comprehensive income, is transferred from other comprehensive income to the profit or loss. Reversal of impairment loss in respect of equity instruments classified as available-for-sale is recognised through equity. Reversal of impairment loss on debt instruments is recognised in the consolidated statement of comprehensive income if the increase in fair value of the instrument can be objectively related to an event occurring after the impairment loss was recognised in the consolidated statement of comprehensive income.

2.10 Financial liabilities

Financial liabilities are classified according to the substance of the contractual arrangements entered into and the definition of a financial liability.

Financial liabilities measured at amortised cost include trade and other payables (excluding GST payables and provision for employee benefits), bank borrowings and finance leases.

The accounting policies adopted for specific financial liabilities are set out below:

(i) Trade and other payables

Trade and other payables are recognised initially at cost which represents the fair value of the consideration to be paid in the future less transaction cost, for goods received or services rendered, whether or not billed to the Group and the Company, and are subsequently measured at amortised cost using the effective interest method.

Gains and losses are recognised in the consolidated statement of comprehensive income when the liabilities are derecognised as well as through the amortisation process.

(ii) Bank borrowings

Borrowings are initially recognised at the fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is taken to the consolidated statement of comprehensive income over the period of the borrowings using the effective interest method.

Borrowings which are due to be settled within 12 months after the end of the financial year are presented as current borrowings even though the original term was for a period longer than 12 months and an agreement to refinance, or to reschedule payments, on a long-term basis is completed after the end of the financial year and before the financial statements are authorised for issue. Other borrowings due to be settled more than 12 months after the end of the financial year are presented as non-current borrowings in the statements of financial position.

(iii) Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due.

Financial guarantee contract liabilities are measured initially at their fair values plus transaction costs and subsequently at the higher of the amount of the obligation under the contract recognised as a provision in accordance with FRS 37 *Provisions, Contingent Liabilities and Contingent Assets* and the amount initially recognised, less cumulative amortisation in accordance with FRS 18 *Revenue*.

Recognition and derecognition

Financial liabilities are recognised on the statements of financial position when, and only when, the Group becomes a party to the contractual provisions of the financial instrument.

Financial liabilities are derecognised when and only when the contractual obligation has been discharged, or cancelled or expired.

On derecognition of a financial liability, the difference between the carrying amount and the consideration paid is recognised in the consolidated statement of comprehensive income.

2.11 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

2.12 Equity instruments and treasury shares

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Ordinary shares are classified as equity instruments and are recorded at the proceeds received, net of direct issue costs.

When share capital recognised as equity is reacquired ("treasury shares"), the amount of consideration paid including any directly attributable incremental cost is presented as a deduction within equity, until they are subsequently cancelled, sold or reissued.

When the treasury shares are subsequently cancelled, the cost of the treasury shares are deducted against the share capital account if the shares are purchased out of capital of the Company, or against the retained earnings of the Company if the shares are purchased out of earnings of the Company.

When the treasury shares are subsequently sold or reissued pursuant to the employee share options scheme, the cost of treasury shares is reversed from the treasury share account and the realised gain or loss on sale or reissue, net of any directly attributable incremental transaction costs and related income tax, is recognised as a change in equity of the Company.

2.13 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the management's best estimate of the expenditure required to settle the obligation at the end of the financial year, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably. The increase in the provision due to the passage of time is recognised in the statement of comprehensive income as finance expense.

Changes in the estimated timing or amount of the expenditure or discount rate are recognised in profit or loss when the changes arise.

2.14 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable for the sale of goods and rendering of services in the ordinary course of business of the Group. Revenue is presented, net of estimated customer returns, rebates, other similar allowances and sales related taxes. The Group's revenue is in respect of external transactions only.

Sale of goods

Revenue from sale of products is recognised when significant risks and rewards of ownership of goods have been transferred to the buyer upon passage of title to the customers, which generally coincides with their delivery and acceptance.

2.14 Revenue recognition (Continued)

Interest income

Interest income is recognised when earned, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's carrying amount.

Rental income

Rental income under operating leases is recognised in the consolidated statement of comprehensive income on a straightline basis over the term of the lease.

Dividend income

Dividend income from investments is recognised when the shareholders' rights to receive payment have been established.

2.15 Research and development expenses

Research and development expenses are recognised as expenses when incurred.

2.16 Employment benefits

Defined contribution plan

Contributions to defined contribution plans are recognised as an expense in the consolidated statement of comprehensive income in the same financial year as the employment that gives rise to the contributions.

Employee leave entitlement

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated undiscounted liability for annual leave expected to be settled wholly within 12 months from the reporting date as a result of services rendered by employees up to the end of the financial year.

2.17 Leases

When the Group is the lessee of a finance lease

Leases in which the Group assume substantially all the risks and rewards incidental to ownership of the leased assets are classified as finance lease.

Upon initial recognition, property, plant and equipment acquired through finance leases are capitalised at the lower of its fair value at the inception of the lease and the present value of the minimum lease payment. Any initial direct costs are also added to the amount capitalised.

Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset. Lease payments are apportioned between finance charge and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charge is recognised in the consolidated statement of comprehensive income.

Capitalised leased asset is depreciated over the shorter of the estimated useful life of the asset and the lease term, if there is no reasonable certainty that the Group will obtain ownership by the end of the finance lease term.

2.17 Leases (Continued)

When the Group is the lessee of an operating lease

Leases of assets in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Rentals payable under the operating lease (net of any incentives received from the lessors) are recognised in the consolidated statement of comprehensive income on a straight-line basis over the period of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

When an operating lease is terminated before the lease period has expired, any payment required to be made to the lessor by way of penalty is recognised as an expense in the financial year in which termination takes place.

Prepaid lease payment

The Group leases land under operating leases and the leases run for a period of 25 to 84 years. The upfront lump-sum payments made under the leases are amortised to the consolidated statement of comprehensive income on a straight-line basis over the term of the leases. The amortisation amount is included in operating lease expenses.

2.18 Borrowing costs

Borrowing costs are recognised in the consolidated statement of comprehensive income in the period in which they are incurred using the effective interest method except for those costs that are directly attributable to the acquisition, construction or production of the qualifying assets.

Borrowing costs are capitalised as part of the cost of a qualifying asset if they are directly attributable to the acquisition, construction or production of that qualifying asset. Capitalisation of borrowing costs commences when the activities to prepare the asset for its intended use or sale are in progress and the expenditures and borrowing costs are incurred. Borrowing costs are capitalised until the assets are substantially completed for their intended use or sale.

2.19 Income tax

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current income tax

The tax currently payable is based on taxable profit for the financial year. Taxable profit differs from profit as reported in the consolidated statement of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or tax deductible. The Group's liability for current tax is recognised at the amount expected to be paid or recovered from the taxation authorities and is calculated using tax rates (and tax laws) that have been enacted or substantively enacted in countries where the Company and subsidiaries operate by the end of the financial year.

Current income taxes are recognised as an expense or income in the consolidated statement of comprehensive income, except when they relate to items credited or debited directly to equity, in which case the tax is recognised directly in equity.

2.19 Income tax (Continued)

Deferred tax

Deferred tax is recognised on all temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised on taxable temporary differences arising on investments in subsidiaries, except where the Group is able to control the reversal of the temporary differences and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each financial year and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised based on the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the financial year.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects to recover or settle its assets and liabilities.

Deferred tax assets and liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to income taxes levied by the same taxation authority and the Group intends to settle the current tax assets and liabilities on a net basis.

Deferred tax is recognised as an expense or income in the consolidated statement of comprehensive income, except when they relate to items credited or debited directly to equity, in which case the tax is also recognised directly in equity, or where they arise from the initial accounting for a business combination. In the case of a business combination, the tax effect is taken into account in calculating goodwill on acquisition.

Sales tax

Revenue, expenses and assets are recognised net of the amount of sales tax except:

- when the sales tax that is incurred on purchase of assets or services is not recoverable from the taxation authorities, in which case the sales tax is recognised as part of cost of acquisition of the asset or as part of the expense item as applicable; and
- (ii) receivables and payables that are stated with the amount of sales tax included. The net amount of sales tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statements of financial position.

2.20 Non-current assets held for sale and discontinued operations

Non-current assets are classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

2.20 Non-current assets held for sale and discontinued operations (Continued)

Non-current assets classified as held for sale are measured at the lower of the asset's previous carrying amount and fair value less costs to sell. The assets are not depreciated or amortised while classified as held for sale. Any impairment loss on initial classification and subsequent measurement is recognised as an expense. Any subsequent increase in fair value less costs to sell (not exceeding the accumulated impairment loss that has been previously recognised) is recognised in consolidated statement of comprehensive income.

A discontinued operation is a component of the Group's business that represents a separate major line of business or geographical area operations that has been disposed of, classified as held for sale, or is a subsidiary acquired exclusively with a view to resale. Classification as a discontinued operation occurs upon disposal or when the operation meets the criteria to be classified as held for sale, if earlier. When an operation is classified as a discontinued operation, the comparative consolidated statement of comprehensive income is re-presented as if the operation had been discontinued from the start of the comparative period.

2.21 Foreign currency transactions and translations

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency ("foreign currencies") are recorded at the rates of exchange prevailing on the date of the transaction. At the end of each financial year, monetary items denominated in foreign currencies are retranslated at the rates prevailing as of the end of the financial year. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlements of monetary items and on retranslation of monetary items are included in the consolidated statement of comprehensive income for the financial year. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in the consolidated statement of comprehensive income for the financial year except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised directly in equity. For such non-monetary items, any exchange component of that gain or loss is also recognised directly in equity.

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Company and the Group's foreign operations (including comparatives) are expressed in Ringgit Malaysia using exchange rates prevailing at the end of the financial year. Income and expense items (including comparatives) are translated at the average exchange rates for the financial year, unless exchange rates fluctuated significantly during that financial year, in which case the exchange rates of the dates at the transactions are used. Exchange differences arising, if any, are classified as equity and transferred to the Group's foreign currency translation reserve. Such translation differences are recognised in the consolidated statement of comprehensive income in the financial year in which the foreign operations are disposed off.

On consolidation, exchange differences arising from the translation of the net investment in foreign operations (including monetary items that, in substance, form part of the net investment in foreign entities), and of borrowings and other currency instruments designated as hedges of such investments, are taken to the foreign currency translation reserve.

On disposal of a foreign operations, the accumulated foreign exchange reserve relating to that operations are reclassified to consolidated statement of comprehensive income.

Goodwill and fair value adjustments arising on acquisition of foreign operations are treated as assets and liabilities of the foreign operations, and translated at the closing exchange rate.

2.22 Dividends

Equity dividends are recognised when they become legally payable. Interim dividends are recorded in the financial year in which they are declared payable. Final dividends are recorded in the financial year in which the dividends are approved by the shareholders. Dividends proposed or declared after the end of the financial year are not recognised as a liability at the end of the financial year.

2.23 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decisionmaker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Group Chief Executive Officer who makes strategic decisions.

2.24 Share-based payment

The Company issues equity settled share-based payments to certain employees and directors.

The fair value of the employee services received in exchange for the grant of options is recognised as an expense in consolidated statement of comprehensive income with a corresponding increase in the share options reserve over the vesting period.

The total amount to be recognised over the vesting period is determined by reference to the fair value of the options granted on the date of grant. In the valuation process, no account is taken of any performance conditions except of conditions linked to the price of the shares of the Company ("market conditions"), if applicable.

The expense recognised in the consolidated statement of comprehensive income at each reporting date reflects the manner in which the benefits will accrue to employees under the option plan over the vesting period. The consolidated statement of comprehensive income charge or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period.

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is conditional upon a market condition, which are treated as vested irrespective of whether or not the market condition is satisfied, provided that all other performance conditions are satisfied.

When the options are exercised and new ordinary shares issued, the proceeds received (net of any attributable transaction costs) are credited to share capital, or to the treasury shares account, when treasury shares are reissued to employees. The share options reserve remained unchanged as a separate reserve when the options are exercised.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any modification, which increases the total fair value of the sharebased payment arrangement, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award, and designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

2.25 Contingencies

A contingent liability is:

- (i) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group; or
- (ii) a present obligation that arises from past events but is not recognised because:
 - a. it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - b. the amount of the obligation cannot be measured with sufficient reliability.

2.25 Contingencies (Continued)

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.

Contingencies are not recognised on the statements of financial position of the Group, except for contingent liabilities assumed in a business combination that are present obligations and which the fair value can be reliably determined.

3. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

3.1 Critical judgements made in applying the accounting policies

In the process of applying the Group's accounting policies, the management is of the opinion that there are no critical judgements involved that have a significant effect on the amounts recognised in the financial statements except as discussed below.

(i) Impairment of investments in subsidiaries and financial assets

The Group and the Company follow the guidance of FRS 36 and FRS 39 in determining whether investments in subsidiaries or financial assets are impaired. This determination requires the assumption made regarding the duration and extent to which the recoverable amount of an investment in a subsidiary or fair value of a financial asset is less than its costs and the financial health of and near-term business outlook for the financial asset, including factors such as industry and sector performance, changes in technology and operational and financing cash flow.

Management's assessment for impairment of investments in subsidiaries is based on the estimation of value in use of the cash-generating unit ("CGU") by forecasting the expected future cash flows for a period of up to five years, using a suitable discount rate in order to calculate the present value of those cash flows. The carrying amount of investments in subsidiaries as at 30 September 2015 was approximately RM2,988,000 (2014: RM2,203,000).

(ii) Patents and trademarks

Patents and trademarks are capitalised in accordance with the accounting policy in Note 2.5. Initial capitalisation of costs is based on management's judgement that the assets are separated from the entity, the entity controls the assets and it is probable that expected future economic benefits of the assets will flow to the entity. The management has applied judgement in determining the useful lives of patents and trademarks after having considered various factors such as competitive environment, product life cycles, operating plans and the macroeconomic environment of the patents and trademarks. In addition, management believes there is no foreseeable limit to the period over which the indefinite patents and trademarks are expected to generate net cash inflows for the Group.

(iii) Determination of functional currency

The Group measures foreign currency transactions in the respective functional currencies of the Company and its subsidiaries. In determining the functional currencies of the entities in the Group, judgement is required to determine the currency that mainly influences sales prices for goods and services and of the country whose competitive forces and regulations mainly determines the sales prices of its goods and services. The functional currencies of the entities in the Group are determined based on management's assessment of the economic environment in which the entities operate and the entities' process of determining sales prices.

3. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

3.2 Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the financial year, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities and reported amounts of revenue and expenses within the next financial year, are discussed below.

(i) Impairment of goodwill, patents and trademarks and franchise fees

The management determines whether goodwill, patents and trademarks and franchise fees are impaired at least on an annual basis and as and when there is an indication that goodwill and patents and trademarks may be impaired. Franchise fees are impaired when there is an indication that franchise fees may be impaired. This requires an estimation of the value in use of patents and trademarks, franchise fees and the cash-generating units to which the goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating unit and also to choose a suitable discount rate in order to calculate the present value of those cash flows. The carrying amounts of goodwill, patents and trademarks and franchise fees as at 30 September 2015 were approximately RM4,042,000, RM8,111,000 and RM2,297,000 (2014: RM4,042,000, RM8,111,000 and RM2,023,000), respectively.

More details on the impairment testing of goodwill, patents and trademarks and franchise fees are disclosed in Note 9 to the financial statements.

(ii) Depreciation of property, plant and equipment

Property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives. Management estimates the useful lives of these assets to be within 3 to 50 years. The carrying amounts of the Group's and the Company's property, plant and equipment as at 30 September 2015 were approximately RM99,252,000 and RM15,000 (2014: RM92,911,000 and RM15,000). Changes in the expected level of usage and technological developments could impact the economic useful lives and residual values of these assets. Therefore, future depreciation charges could be revised.

(iii) Income taxes

The management has exercised significant estimates when determining the Group's and the Company's provisions for income taxes. These involve assessing the probabilities that deferred tax assets resulting from deductible temporary differences, unutilised tax losses and unabsorbed tax allowances, if any, can be utilised to offset future taxable income. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of action. Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income.

Given the wide range of international business arrangements, the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate adjustments to tax income and expense in future periods. The Group and the Company establish reasonable provision for possible consequences of audits by the tax authorities of the respective countries. The amount of such provisions and/or its subsequent reversals is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective Group and Company domicile. The carrying amounts of current income tax payable, deferred tax assets, tax recoverable and deferred tax liabilities of the Group and of the Company as at 30 September 2015 and 30 September 2014 are as disclosed in the statements of financial position.

3. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)

3.2 Key sources of estimation uncertainty (Continued)

(iv) Allowance for doubtful receivables

The management establishes allowance for doubtful receivables on a case-by-case basis when they believe that payment of amounts owed is unlikely to occur. In establishing these allowances, the management considers its historical experience and changes to its customers' financial position. If the financial conditions of receivables were to deteriorate, resulting in impairment of their abilities to make the required payments, additional allowances may be required.

The carrying amounts of the Group and the Company's trade and other receivables excluding prepayments, deposits for purchase of property, plant and equipment and advances to suppliers as at 30 September 2015 were approximately RM56,415,000 and RM230,122,000 (2014: RM101,130,000 and RM234,438,000), respectively.

(v) Inventories and related allowance

Inventories are stated at the lower of cost and net realisable value. The management primarily determines cost of inventories using the "first-in, first-out" method. The management estimates the net realisable value of inventories based on assessment of receipt or committed sales prices and provide for excess and obsolete inventories based on historical usage, estimated future demand and related pricing. In determining excess quantities, the management considers recent sales activities, related margin and market positioning of its products. However, factors beyond its control, such as demand levels, technological advances and pricing competition, could change from period to period. Such factors may require the Group to reduce the value of its inventories. The carrying amount of the Group's inventories as at 30 September 2015 was approximately RM37,637,000 (2014: RM40,164,000).

4. PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

During the financial year, the Group acquired property, plant and equipment as follows:

	2015	2014
	RM'000	RM'000
Additions of property, plant and equipment	16,908	24,686
Acquired under finance lease	(8,756)	(4,757)
Cash payments made to acquire property, plant and equipment	8,152	19,929

Included in property, plant and equipment are the following assets acquired under finance lease arrangements:

	Gro	up
	2015	2014
	RM'000	RM'000
Carrying amount		
Plant and machinery	282	347
Motor vehicles	3,476	3,470
Office equipment	519	-
Store equipment	10,403	4,649
	14,680	8,466

Assets under construction represent costs of the assets work-in-progress.

As at 30 September 2015, information relating to the Group's freehold properties are as follows:

Location	Description	Existing use	Gross land area (sq ft)	Gross floor area (sq ft)
Trading and Frozen Food Division				
Lot 55, Hicom Glenmarie Industrial Park, Selangor, Malaysia	Warehouse	Office, warehouse, cold room and processing factory	68,674	43,200
Lot 1-3-1, Sri Kerjaya Apartment, Shah Alam, Selangor, Malaysia	Apartment	Staff quarters	-	883

1, Jalan Bertam 6, Taman Daya, 81100 Johor Bahru, Johor, Malaysia	Industrial warehouse	Cold room	4,690	3,200
7, Jalan Bertam 6, Taman Daya, 81100 Johor Bahru, Johor, Malaysia	Industrial warehouse	Cold room	2,400	2,400
Food Processing Division				
Lot 17225, Jalan Haruan 6, Oakland Industrial Park, 70200 Seremban, Negeri Sembilan, Malaysia	Industrial land	Factory building	64,810	29,550
PT 4974, Jalan Haruan 8, Oakland Industrial Park, 70200 Seremban, Negeri Sembilan, Malaysia	Industrial land	Factory building	53,346	36,258

In the previous financial year, the Group carried out a review of the recoverable amount of plant and equipment of its bakery and noodles business due to deterioration in operating results following the loss of a key customer for bakery business and the continuing adverse operating results from the noodles business. The review led to the recognition of an impairment loss mainly on plant and equipment of approximately RM21,832,000 that has been recognised in profit or loss and included in "other operating expenses". The recoverable amount of the relevant assets has been determined on the basis of their value in use. The discount rate used in measuring value in use was 8.35%.

5. PREPAID LEASE PAYMENT FOR LAND

	Grou	qı

6. INVESTMENTS IN SUBSIDIARIES (CONTINUED)

6.4 Additional investment in subsidiary in financial year 2015

On 1 October 2014, the Group acquired a shelf company incorporated on 18 September 2014, namely Gourmessa Sdn Bhd ("GSB") by acquiring 2 new ordinary shares in the capital of GSB at an issue price of RM1 per share or a total subscription amount of RM2. GSB's principal activity is to manufacture and distribute convenient value-added frozen food.

6.5 Additional investment in subsidiary in the previous financial year 2014

On 27 February 2014, a wholly owned subsidiary, Envictus NZ Limited, which held 63.4% equity interest in Envictus Dairies NZ Limited ("EDNZ"), had subscribed for an additional 1,936,768 new ordinary shares in the share capital of EDNZ pursuant to a right issue exercise undertaken by EDNZ at an issue price of NZ\$1 per share or a total subscription amount of NZ\$1,936,768 (equivalent to approximately RM4,943,000), thereby increasing the effective shareholding of the Group in EDNZ to 72.3%. The difference between the subscription amount and the carrying value of the additional interest acquired has been recognised as Acquisition of non-controlling interests without a change in control.

6.6 Internal restructuring exercise of the Group

On 8 January 2015, the Company entered into a sale and purchase agreement with, wholly owned subsidiary, Polygold Holdings Sdn Bhd for the disposal of 1,000,000 ordinary shares representing 100% equity in Polygold Beverages Sdn Bhd for a total consideration of RM6,270,000.

6.7 Disposal of subsidiaries in the previous financial year 2014

On 30 June 2014, the Group disposed off its dairies and packaging business comprising the entire interest in the following subsidiaries to an unrelated third party for cash consideration of USD299,952,000, equivalent to approximately RM964,167,000:

- (i) Etika Dairies Sdn Bhd;
- (ii) Etika Global Resources Sdn Bhd;
- (iii) Etika Foods Marketing Sdn Bhd;
- (iv) General Packaging Sdn Bhd;
- (v) Golden Difference Sdn Bhd and its subsidiaries, namely Susu Lembu Asli Marketing Sdn Bhd, Susu Lembu Asli (Johore) Sdn Bhd and Etika Consumer Sdn Bhd;
- (vi) Etika Vixumilk Pte Ltd;
- (vii) Etika Foods (Singapore) Pte Ltd and its subsidiary, namely Etika Foods (Vietnam) Co., Ltd;
- (viii) PT Etika Marketing;
- (ix) PT Vixon Indonesia;
- (x) PT Etika Indonesia;
- (xi) PT Sentraboga Intiselera; and
- (xii) Tan Viet Xuan Production Joint Stock Company.

The Group's control of the said subsidiaries was passed to the acquirer on 30 June 2014.

INVESTMENTS IN SUBSIDIARIES (CONTINUED) 6.

6.7 Disposal of subsidiaries in the previous financial year 2014 (Continued)

The effects of the disposal as at the date of disposal were as follows:

	Carrying amount RM'000
Property, plant and equipment	213,520
Prepaid lease payment for land	31,643
Intangible assets	35,891
Deferred tax assets	1,160

9. INTANGIBLE ASSETS (CONTINUED)

During the financial year, the Group through its subsidiary, had paid a franchise fee in relation to territory and new stores of RM Nil (2014: RM290,000) and RM498,000 (2014: RM229,000), respectively which is in accordance with the International Multiple Unit Franchise Agreement to develop and operate "Texas Chicken" restaurants over 10 to 20 years in Malaysia.

Patents and trademarks relate to various trademarks under the brand names of Horleys, Salam Mie, Family and Daily Fresh acquired through business combinations in previous financial years. In the previous financial year, the Group disposed various trademarks that included those under the brand names of Dairy Champ, Goodday and Vixumilk for cash consideration amounting to USD23,112,000 as part of the disposal of subsidiaries (Note 6), equivalent to approximately RM74,290,000 and realised a gain of approximately RM34,248,000.

The effects of disposal of trademarks on cash flows are as follows:

	2014
	RM'000
Cash proceeds from disposal	74,290
Less: Carrying amount of trademarks	(40,042)
Gain on disposal	34,248
Net cash inflow on disposal	74,290

The useful lives of the patents and trademarks are estimated to be indefinite because based on the current market share of the patents and trademarks, management believes that there is no foreseeable limit to the period over which the patents and trademarks are expected to generate net cash flow for the Group. As such there is no amortisation of the costs of patents and trademarks.

Impairment testing of goodwill, patents and trademarks and other intangible assets

Goodwill acquired in a business combination is allocated to the cash generating units ("CGUs") that are expected to benefit from that business combination.

The Group test the CGUs for impairment annually, or more frequently when there is an indication that the unit may be impaired.

In the previous financial year, the operating units in the bakery and nutrition business made an impairment of goodwill and patents and trademarks of approximately RM10,890,000 and RM11,951,000, respectively due mainly to the continuing adverse operating performance of the respective CGUs. The impairment of goodwill and patents and trademarks have been included under "other operating expenses".

For presentation purposes, the carrying amounts of goodwill, patents and trademarks and other intangible assets allocated to the respective CGUs have been grouped to the following segments:

- (a) Trading and Frozen Food Division;
- (b) Food Services Division;
- (c) Nutrition Division;
- (d) Food Processing Division; and
- (e) Others Division.

9. INTANGIBLE ASSETS (CONTINUED)

	Trading and Frozen Food RM'000	Food Services RM'000	Nutrition RM'000	Food Processing RM'000	Others RM'000	Total RM'000

Franchise fees	-	2,023	-	-	-	2,023
	4,206	2,023	8,111	135	58	14,533

The recoverable amount of the CGUs are determined from value in use calculations based on forecasts derived from the most recent cash flow projections approved by management for the 5-years. The key assumptions for these value-in-use calculations are those regarding the discount rates, growth rates and gross margins.

	Trading and Frozen Food	Food Services	Nutrition	Food Processing
	%	%	%	%
2015				
Gross margin ⁽¹⁾	16.84	54.67	43.50	20.76

2014 (restated)				
Gross margin ⁽¹⁾	18.63	53.00	43.56	21.00
Growth rate ⁽²⁾	12.00	57.23	3.15	14.17
Discount rate ⁽³⁾	7.85	7.00	7.25	9.81

⁽¹⁾ Average budgeted gross margin.

⁽²⁾ Average growth rate used to extrapolate cash flows for the 5-year period.

⁽³⁾ Pre-tax discount rate applied to the cash flow projections.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2015

9. INTANGIBLE ASSETS (CONTINUED)

Key assumptions used in the value in use calculations

The calculations of value in use for both the CGUs are most sensitive to the following assumptions:

Budgeted gross margins – Gross margins are based on average values achieved in the five years preceding the start of the budget period. These are increased over the budget period for anticipated efficiency improvements.

Growth rates – The forecasted growth rates are based on published industry research and do not exceed the long-term average growth rate for the industries relevant to the CGUs.

Pre-tax discount rates – Discount rates represent the current market assessment of the risks specific to each CGU, regarding the time value of money and individual risks of the underlying assets which have not been incorporated in the cash flow estimates. The discount rate calculation is based on the specific circumstances of the Group and its operating segments and derived from its weighted average cost of capital (WACC). The WACC takes into account both debt and equity. The cost of equity is derived from the expected return on investment by the Group's investors. The cost of debt is based on the interest bearing borrowings the Group is obliged to service. Segment–specific risk is incorporated by applying individual beta factors. The beta factors are evaluated annually based on publicly available market data.

Sensitivity to changes in assumptions

Management believes that changes in any of the above key assumptions by 10% would not cause the carrying amounts of the respective CGUs to be materially different from their recoverable amount.

The Horleys trademark with a carrying amount of approximately RM8,111,000 (2014: RM8,111,000) has been pledged to financial institutions for banking facilities granted to a subsidiary as disclosed in Note 16 to the financial statements.

10. INVENTORIES

	Group	
	2015	2014
	RM'000	RM'000
Finished goods	32,162	34,330
Raw materials	1,956	3,242
Packaging materials	2,188	3,249
Work in progress	18	109
Consumables	1,663	921
	37,987	41,851
Allowance for write down of inventories	(350)	(1,687)
	37,637	40,164

The cost of inventories recognised as an expense and included in "cost of goods sold" in the consolidated statement of comprehensive income amounted to RM234,052,000 (2014: RM237,243,000).

10. INVENTORIES (CONTINUED)

The allowance provided during the financial year of RM350,000 (2014: RM1,687,000) pertains to the slow moving inventories.

As at the end of the financial year, the Group's inventories with a carrying amount of approximately RM5,723,000 (2014: RM5,992,000) is subject to a floating charge for the banking facilities granted to a subsidiary (Note 16).

11. TRADE AND OTHER RECEIVABLES

	Gro	oup	Com	pany
	2015	2014	2015	2014
	RM'000	RM'000	RM'000	RM'000
Current receivables				
Trade receivables	55,919	45,097	-	-
Allowance for doubtful trade receivables	(4,406)	(4,602)	-	-
	51,513	40,495	-	-
Other receivables	1,605	58,316	154	57,741
Allowance for doubtful other receivables	(41)	(42)	-	-
	1,564	58,274	154	57,741
Prepayments	3,178	2,354	-	6
Deposits	3,338	2,361	54	44
Advances to suppliers	1	3,428	-	-
	6,517	8,143	54	50
Due from subsidiaries				
- non-trade	-	-	295,028	218,637
Allowance for doubtful debts	-	-	(65,114)	(41,984)
	-	-	229,914	176,653
	59,594	106,912	230,122	234,444
Non-current receivables				
Deposits for purchase of property,				
plant and equipment	36,359	-	-	-
Total trade and other receivables	95,953	106,912	230,122	234,444

The trade amounts owing by third parties are repayable within the normal trade credit terms of 30 to 60 days (2014: 30 to 60 days). In the opinion of the management, based on the review of the trade receivables, including balances that are outstanding for more than 90 days, allowance for doubtful receivables as at 30 September 2015 is adequate.

In the previous financial year, other receivables comprise mainly the adjustment amount of the sale consideration receivable in relation to the disposal of certain subsidiaries (Note 6). The amount has been received during the financial year.

The non-trade amounts due from subsidiaries are unsecured, interest-free and repayable on demand.

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 30 SEPTEMBER 2015

11. TRADE AND OTHER RECEIVABLES (CONTINUED)

Allowance for doubtful trade receivables which are individually determined to be impaired arose mainly from customers who have difficulty in settling the amount due. Write back of allowance no longer required is due to amount recovered during the financial year.

Movements in the allowance for doubtful trade receivables are as follows:

	Group	
	2015	2014
	RM'000	RM'000
At 1 October	4,602	13,325
Currency realignment	380	(131)
Allowance made during the financial year	300	1,763
Write back of allowance no longer required	(293)	(994)
Bad receivables written off against allowance	(583)	(2,944)
Disposal of subsidiaries	-	(6,417)
At 30 September	4,406	4,602

Movements in the allowance for doubtful other receivables are as follows:

	Group	
	2015	2014
	RM'000	RM'000
At 1 October	42	316
Currency realignment	-	2
Allowance made during the financial year	-	42
Write back of allowance no longer required	(1)	-
Bad receivables written off against allowance	-	(318)
At 30 September	41	42

During the financial year, the Company has provided allowance for doubtful receivables on amount due from subsidiaries of RM23,130,000 (2014: RM41,984,000) due to the continuous losses incurred by the concerned subsidiaries which may result to their inability to settle the receivables.

11. TRADE AND OTHER RECEIVABLES (CONTINUED)

The currency profiles of the Group's and Company's trade and other receivables (excluding prepayments, advances to suppliers and deposits for purchase of property, plant and equipment) as at 30 September are as follows:

	Group		Com	pany
	2015	2014	2015	2014

14. NON-CURRENT ASSETS CLASSIFIED AS HELD FOR SALE

The non-current assets classified as held for sale in the current financial year relates to prepaid lease payment for land and building that management committed to sell and for which, an active programme to locate a buyer was undertaken during the year. Subsequent to the financial year end, management had secured a buyer as disclosed in Note 35 to the financial statements.

The details of non-current assets classified as held-for sale are as follows:

	G	roup
	2015	2014
	RM'000	RM'000
Prepaid lease payment for land (Note 5)	4,184	
Building (Note 4)	182	
	4,366	

There are no items in statement of comprehensive income relating to non-current assets classified as held for sale.

As at the end of the financial year, the non-current assets classified as held for sale as disclosed above are denominated in Indonesian Rupiah.

15. TRADE AND OTHER PAYABLES

Term loans	4.35 - 7.35	7.10

Non-current bank borrowings are repayable as follows:

	Group	
	2015	015 2014
	RM'000	RM'000
After one year	4,174	27
Two to five years	98	96
After five years	3	33
	4,275	156

The Group's bank borrowings as at 30 September 2015 are secured against the following:

(a) Registered general security agreement over all present and future assets of certain subsidiaries;

(b) Pledge of Horleys trademark as disclosed in Note 9 to the financial statements;

(c) Company's Corporate Guarantee, except for a secured term loan of RM158,000 (2014: RM182,000);

(d) Pledge of inventories of a subsidiary as disclosed in Note 10 to the financial statements; and

(e) Pledge of land and building upon completion of purchase (Note 11).

17. FINANCE LEASE PAYABLES

	Minimum lease payments	Future finance charges	Present value of lease payments
	RM'000	RM'000	RM'000
Group			
2015			
Within one year	4,293	(739)	3,554
After one year but within five years	11,000	(955)	10,045
	15,293	(1,694)	13,599
2014			
Current			
Within one year	2,661	(417)	2,244
After one year but within five years	6,072	(501)	5,571

The finance lease terms range from 1 to 5 years.

The effective interest rates charged during the financial year ranges from 2.32% to 6.37% (2014: 2.32% to 12.69%) per annum. Interest rates are fixed at the contract dates.

8,733

(918)

7,815

All leases are on a fixed repayment basis and no arrangements have been entered into for contingent rental payments.

The Group's obligations under finance leases are secured by the leased assets (Note 4) and certain finance leases are secured by corporate guarantee (Note 18) issued by the Company.

The currency profiles of the Group's finance lease payables as at 30 September are as follows:

		Group
	20	15 2014
	RM'0	00 RM'000
Ringgit Malaysia	13,5	
Indonesian Rupiah		- 20
	13,5	99 7,815

18. FINANCIAL GUARANTEE CONTRACTS

	Con	npany
	2015	2014
	RM'000	RM'000
At 1 October	92	7,365
Additional financial guarantee contracts during the year	1,805	-
Reversal of financial guarantee contracts during the year	-	(7,273)
At 30 September	1,897	92

The balance as at 30 September 2015 of RM1,897,000 (2014: RM92,000) represents the fair value of financial guarantee contracts which was discounted at interest rates ranging from 3.3% to 5.06% (2014: 3.3% to 7.2%) per annum for over 1 to 12 years (2014: 5 years).

In the previous financial year, the reversal of financial guarantee contracts were due to settlement of bank borrowings following the disposal of certain subsidiaries (Note 6).

Issuance of ordinary shares arising from the exercise of share options	-	-	5,014	12,936
At 30 September	46,526	111,406	46,526	111,406

The Company has only one class of ordinary shares which carry no right to fixed income.

The holders of ordinary shares of the Company are entitled to receive dividends as and when declared by the Company. All ordinary shares of the Company carry one vote per share without restriction.

Share capital does not have a par value.

All of these newly issued ordinary shares rank pari-passu with the existing ordinary shares.

Movements in number of shares issued:

	Group and Company	
	Number of or	dinary shares
	2015	2014
	'000 '	'000 '

At 30 September	631,927	631,927

Treasury shares

Movement in treasury shares:

	Group and Company			
	Number of treasury shares Am		mount	
	2015	2014	2015	2014
	'000 '	'000 '	RM'000	RM'000
At 30 September	1,210	1,210	183	183

The total amount paid to repurchase the shares has been deducted from shareholders' equity. The repurchased shares are held as treasury shares.

20. SHARE CAPITAL (CONTINUED)

Envictus Employee Share Options Scheme ("ESOS")

Statutory and other information regarding the ESOS is set out below:

- (i) The Remuneration Committee ("the Committee") may at its discretion, fix the subscription price at a discount up to 20% off market price, or a price equal to the average of the last dealt market prices for the 5 consecutive market days immediately preceding the grant of the options.
- (ii) Consideration for the grant of an option is S\$1.00.
- (iii) Options can be exercised 1 year after grant for market price options and 2 years for discounted options.
- (iv) Options granted expire after 10 years for employees of the Group or such earlier date as may be determined by the Committee.
- (v) Options granted will lapse when participant ceases to be a full-time employee with the Group, subject to certain exceptions at the discretion of the Company.
- (vi) The aggregate number of shares over which options may be granted on any date, when added to the number of shares issued and issuable in respect of all options granted under the ESOS, shall not exceed 15% of the issued share capital of the Company on the day preceding that date of grant.

Information in respect of the share options granted under the ESOS is as follows:

	20	015	2014		
	Number of share options	Weighted average exercise price	Number of share options	Weighted average exercise price	
	'000	S\$	'000 '	S\$	
Outstanding at 1 October Exercised	12,173	0.394	29,304 (17,131)	0.335 0.164	
Outstanding at 30 September	12,173	0.394	12,173	0.394	
Exercisable as at 30 September	12,173	0.394	12,173	0.394	

The fair value of share options as at the date of grant is estimated by an external independent valuer using the Binomial optionpricing model, taking into account the terms and conditions upon which the options were granted. The significant inputs into the model were share prices at date of grant, exercise price, yield, expected volatility, risk-free interest rate and option life expected.

Volatility, measured as the standard deviation of expected share price returns, was based on the average 10-day volatility over one year observation period in accordance with convention laid down by Bank for International Settlements. The inputs to the model used are shown below.

20. SHARE CAPITAL (CONTINUED)

Envictus Employee Share Options Scheme ("ESOS") (Continued)

Date of grant	Expected dividend yield (%)	Expected volatility (%)	Risk-free interest rate (%)	Expected life of options (years)	Exercise price S\$	Share price at date of grant S\$
10.02.2010	6.82	30	1.54	7	0.164*	0.415
13.10.2010	3.50	20	1.24	7	0.400	0.495

exercise price has been adjusted for a bonus issue of one for one on 12 October 2010.

21. FOREIGN CURRENCY TRANSLATION RESERVE

The foreign currency translation reserve of the Group represents foreign exchange differences arising from the translation of the financial statements of foreign operations and the Company where functional currencies are different from that of the Group's presentation currency. The foreign exchange reserve of the Company represents foreign exchange differences arising from translation of the financial statements of the Company from its functional currency to its presentation currency. This is non-distributable and the movements in this account are set out in the statements of changes in equity.

22. FAIR VALUE RESERVE

The fair value reserve represents the cumulative change in the fair value of available-for-sale financial assets until they are derecognised. Movements in this reserve are set out in the statements of changes in equity.

23. OTHER RESERVE

The other reserve represents the premium paid for the acquisition of non-controlling interests in a subsidiary. Movements in this reserve are set out in the statements of changes in equity.

24. REVENUE

Revenue represents the invoiced value of goods sold less returns and trade discounts.

28. DISCONTINUED OPERATIONS

As discussed in Note 6 to the financial statements, the Group disposed of its dairies and packaging business on 30 June 2014.

Pursuant to FRS 105, *Non-current Assets Held for Sale and Discontinued Operations*, the results of the discontinued operations have been presented separately in the consolidated statement of comprehensive income.

The results of the discontinued operations are as follows:

		1.10.2013 to 30.6.2014
	Note	RM'000
Revenue		540,891
Costs of goods sold		(423,586)
Gross profit		117,305
Other operating income		2,418
Administration expenses		(15,349)
Selling and marketing expenses		(24,753)
Warehouse and distribution expenses		(15,388)
Research and development expenses		(1,451)
Other operating expenses		(8,180)
Finance costs		(12,153)
Profit before tax from discontinued operations	26	42,449
Income tax expense	27	(5,704)
Profit after tax from discontinued operations		36,745

Profit from discontinued operations, net of tax		610,021
Profit from discontinued operations attributable to:		
Owners of the Company		610,014
Non-controlling interests		7
		610,021

The impact of the discontinued operations on the cash flows of the Group is as follows:

	2014
	RM'000
Operating activities	22,660
Investing activities	642,615
Financing activities	(35,411)
Total cash inflows	629,864

29. (LOSS)/EARNINGS PER SHARE

Basic earnings per share is calculated by dividing the Group's (loss)/profit after income tax attributable to the equity holders of the Company by the weighted average number of ordinary shares in issue during the financial year.

	Group		
	2015	2014	
From continuing operations			
Loss after income tax attributable to owners of the Company (RM'000)	(363)	(67,398)	
Weighted average number of ordinary shares in issue during the financial year ('000)	630,717	622,627	
Basic loss per share (in sen)	(0.06)	(10.82)	
Diluted loss per share (in sen)	(0.06)	(10.82)	

Diluted loss per share is the same as the basic loss per share because the potential ordinary shares to be converted are antidilutive as the effect of the share conversion would be to decrease the loss per share.

	Gro	oup
	2015	2014
From discontinued operations		
Profit after income tax attributable to owners of the Company (RM'000)	-	610,014
Weighted average number of ordinary shares in issue during the financial year ('000)	-	622,627
Basic earnings per share (in sen)	-	97.97
Diluted earnings per share (in sen):		
Profit after income tax attributable to owners of the Company (RM'000)	-	610,014
Weighted average number of shares in issue ('000)	-	622,627
Adjustment for:		
- Employee share options ('000)*	-	283
	-	622,910
Diluted earnings per share (in sen)	-	97.93

* The remaining employee share options are anti-dilutive and therefore have been excluded from the diluted earnings per share computation.

30. DIVIDENDS

	Group and Company		
	2015	2014

Dividends paid:			
Final tax exempt 1-tier dividend of S\$0.002 per share paid in respect of financial year ended 30 September 2013		3,218	
Interim tax exempt 1-tier dividend of S\$0.30 paid in respect of financial year ended 30 September 2014	-	488,086	
	-	491,304	

31. SIGNIFICANT RELATED PARTY TRANSACTIONS

A related party is defined as follows:

- (a) A person or a close member of that person's family is related to the Group and Company if that person:
 - (i) has control or joint control over the Company;
 - (ii) has significant influence over the Company; or
 - (iii) is a member of the key management personnel of the Group or Company or of a parent of the Company.
- (b) An entity is related to the Group and the Company if any of the following conditions applies:
 - (i) the entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) both entities are joint ventures of the same third party.
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Company or an entity related to the Company. If the Company is itself such a plan, the sponsoring employers are also related to the Company.
 - (vi) the entity is controlled or jointly controlled by a person identified in (a).
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
 - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the reporting entity or to the parent of the reporting entity.

31. SIGNIFICANT RELATED PARTY TRANSACTIONS (CONTINUED)

During the year, in addition to the information disclosed elsewhere in these financial statements, the Group and the Company entered into the following transactions with related parties at rates and terms agreed between the parties:

	Gro	oup	Company		
	2015	2014	2015	2014	
	RM'000	RM'000	RM'000	RM'000

	-	3,228	-	-	
Analysed into:					
- Directors of the subsidiaries	-	3,228	-	-	

Certain directors and key management personnel were granted share options in 2010 in respect of their services to the Group and the Company under the share options scheme of the Company. Further details on the share options are set out in Note 20 to the financial statements.

32. CONTINGENT LIABILITIES AND COMMITMENTS

32.1 Capital commitments

As at the end of the financial year, the Group had the following capital commitments:

	Gro	oup
	Grou 2015 RM'000 66,625	2014
	 RM'000	RM'000
Purchase of property, plant and equipment	66,625	812

32. CONTINGENT LIABILITIES AND COMMITMENTS (CONTINUED)

32.2 Operating lease commitments

As at the end of the financial year, there were operating lease commitments for rental payable in subsequent accounting periods as follows:

	Gre	oup
	2015	2014
	RM'000	RM'000
Within one year	7,610	7,392
Two to five years	8,775	8,784
More than five years	6,249	4,172
	22,634	20,348

As at the end of the financial year, the Group leases office premises and other operating facilities under operating leases. Leases are negotiated and rentals are fixed for a period of 1 to 10 years with an option to renew at the prevailing market rates. Certain leases require the Group to pay contingent rentals computed based on the sales achieved during the lease period.

32.3 Contingent liabilities

Group

During the year, Envictus Dairies NZ Limited ("EDNZ"), a 72.3% owned subsidiary of the Group has received a claim in respect of product supplied to one of its customers. Management have emphatically denied the claim and intend to vigourously defend the EDNZ's position should the other party chose to proceed. At this early stage of progress of the matter currently there is no reliable estimate of the amount (if any) of a settlement.

33. SEGMENT INFORMATION

Business segments

A segment is a distinguishable component of the Group's business that is engaged either in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

Management has determined the operating segments based on the reports reviewed that are used to make strategic decisions.

The Group's reportable segments are strategic business units that are organised based on their function and targeted customer groups. They are managed separately because each business unit requires different skill sets and marketing strategies.

Management monitors the operating results of the segments separately for the purpose of making decisions about resources to be allocated and of assessing performance. Segment performance is evaluated based on operation profit or loss which is similar to the accounting profit or loss.

The accounting policies of the operating segments are the same of those described in the summary of significant accounting policies. There is no asymmetrical allocation to reportable segments.

Management evaluates performance on the basis of profit or loss from operation before tax expense not including non-recurring gains and losses and foreign exchange gains or losses.

33. SEGMENT INFORMATION (CONTINUED)

Business segments (Continued)

The Group's businesses have been reorganised into the following segments to better reflect the business activities they are engaged in the current financial year:

- (a) Trading and Frozen Food Division wholesalers of foodstuff, provision and frozen meat;
- (b) Food Services Division Texas Chicken;
- (c) Nutrition Division marketing and distribution of branded sport nutrition and weight management food; and
- (d) Food Processing Division comprising of:
 - bakery;
 - butchery;
 - beverages; and
 - contract packing for dairy and juice-based drinks.

The reorganisation of the segments are as detailed below:

- i) Certain businesses previously classified under Trading and Frozen Food and Nutrition divisions have been reallocated into a new division, Food Processing; and
- ii) Texas Chicken previously classified under others has been reallocated into a new segment, Food Services.

Comparative figures have been restated accordingly to reflect the Group's current business segments.

Geographical segments

The Group's business segments operate in three main geographical areas. Revenue is based on the country in which the customer is located. Segment non-current assets consist primarily of non-current assets other than financial instruments, deferred tax assets. Segment non-current assets are shown by geographical area in which the assets are located.

	Malaysia RM'000	Africa* RM'000	Asean (excluding Malaysia)* RM'000	New Zealand RM'000	Australia RM'000	Others* RM'000	Total RM'000

* Comprise countries with individually insignificant revenue and assets

34. FINANCIAL RISKS AND CAPITAL MANAGEMENT

The Group's activities expose the Group to financial risks (including credit risk, foreign currency risk, interest rate risk, liquidity risk and equity price risk) arising in the normal course of business. The Group's overall risk management strategy seeks to minimise adverse effects from the volatility of financial markets on the Group's financial performance.

The management is responsible for setting the objectives and underlying principles of financial risks management for the Group. The management continually monitors the Group's financial risk management process to ensure that an appropriate balance between risk and control is achieved.

There has been no change to the Group's exposure to these financial risks or the manner in which it manages and measures the risks. The Group and the Company do not hold or issue derivative financial instruments for trading purposes.

34.1 Credit risk

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in a loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults. The Group performs ongoing credit evaluation of its counterparties' financial condition and generally does not require collateral.

The Company and the Group have no significant concentration of credit risk except for amounts due from subsidiaries, respectively. The maximum exposures to credit risk are represented by the carrying amount of the financial assets on the statement of financial position in the Company and the Group.

In the previous year, other receivable from an unrelated third party arising from the disposal of subsidiaries comprises 52% of total trade and other receivables of the Group.

Trade receivables that are neither past due nor impaired are substantially from companies with good collection track record with the Group.

The age analysis of trade receivables of the Group which are past due but not impaired is as follows:

	Gro	oup
	2015	2014
	RM'000	RM'000
Past due 1 day to 3 months	22,871	16,643
Past due 3 to 6 months	4,286	2,487
Past due 6 to 12 months	3,733	1,635
Past due over 12 months	-	48
	30,890	20,813

Based on historical default rates, the Group believes that no impairment is necessary in respect of trade receivables past due as the Group has a credit policy to maintain its exposure to credit risk on an on-going basis. The trade receivables are mainly arising from customers that have good collection track records within the Group.

Bank deposit is a deposit with a financial institution with high credit-ratings assigned by international credit rating agencies.

34.2 Foreign currency risk

Foreign currency risk arises from transactions denominated in currencies other than the functional currencies of the respective companies in the Group and the Company.

The currencies that give rise to this risk of the Group are primarily Malaysia Ringgit ("MYR"), United States Dollar ("USD"), Singapore Dollar ("SGD"), New Zealand Dollar ("NZD"), Australian Dollar ("AUD"), Hong Kong Dollar ("HKD"), Chinese Renminbi ("RMB") and Indonesian Rupiah ("IDR").

The currencies that give rise to this risk of the Company are primarily Malaysia Ringgit ("MYR"), United States Dollar ("USD"), New Zealand Dollar ("NZD"), Australian Dollar ("AUD"), Hong Kong Dollar ("HKD"), Euro and Chinese Renminbi ("RMB").

The Group and the Company have not entered into any currency forward exchange contracts as at the end of the financial year.

The Group's and the Company's exposure from foreign currency denominated financial assets and financial liabilities as at the end of the financial year is as follows:

	MYR RM'000	USD RM'000	SGD RM'000	NZD RM'000	AUD RM'000	HKD RM'000	RMB RM'000	IDR RM'000

Foreign currency sensitivity analysis

The following table details the Group's sensitivity to a 15% (2014: 5%) change in MYR, USD, SGD, NZD, AUD and HKD against the Group entities' respective functional currency. The Company's sensitivity to a 15% (2014: 5%) change in MYR, USD, NZD, AUD and HKD against the Company's functional currency (SGD). The sensitivity analysis assumes an instantaneous 15% (2014: 5%) change in the foreign currency exchange rates from the end of the financial year, with all other variables held constant. The results of the model are also constrained by the fact that only monetary items, which are denominated in SGD, USD, NZD, AUD, HKD and MYR are included in the analysis.

The potential impact of foreign exchange rate fluctuation in profit or loss as described in the sensitivity analysis above is attributable mainly to foreign exchange rate fluctuations of the Group's and the Company's foreign exchange exposure on foreign currency denominated cash and cash equivalents, held-for-trading investments, receivables and payables at the end of the financial year.

34.3 Interest rate risk

The Group's exposure to market risks for changes in interest rates relates primarily to bank borrowings (2014: bank borrowings) with financial institutions. The Group maintains an efficient and optimal interest cost structure using a combination of fixed and variable rate debts, and long and short term borrowings.

Interest rate sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rate risk for bank borrowings at the end of the financial year. For floating rate liabilities, the analysis is prepared assuming the amount of liability outstanding at the end of the financial year was outstanding for the whole year. The sensitivity analysis assumes an instantaneous 3% (2014: 3%) change in the interest rates from the end of the financial year, with all variables held constant.

If the interest rates increase by 3% (2014: 3%), profit before tax of the Group will decrease by:

		ed statement nsive income
	2015	2014
	RM'000	RM'000
Bank borrowings	1,399	182

A 3% (2014: 3%) decrease in the interest rates would have an equal but opposite effect to the Group.

As at the end of the financial year, the Company is not exposed to interest rate risk (2014: Nil). As such, no sensitivity analysis is deemed necessary.

34.4 Liquidity risk

The Group and the Company actively manage their operating cash flows and the availability of funding so as to ensure that all repayment and funding needs are met. As part of their overall prudent liquidity management, the Group and the Company maintain sufficient levels of cash and cash equivalents and by ensuring the availability of funding through adequate amount of committed credit facilities from financial institutions to meet their working capital requirements.

The following table details the Group's remaining contractual maturity for its non-derivative financial instruments. The table has been drawn up based on undiscounted cash flows of financial instruments based on the earlier of the contractual date or when the Group is expected to pay. The table includes both interest and principal cash flows.

34.4 Liquidity risk (Continued)

	Effective interest rate	Less than 1 year	1 to 2 years	2 to 5 years	More than 5 years	Total
	(%)	RM'000	RM'000	RM'000	RM'000	RM'000
Group						
2015						
Bank borrowings	4.35 - 7.35	44,049	4,375	105	3	48,532
Finance lease payables	2.32 - 6.37	4,293	3,996	7,004	-	15,293
Trade and other payables	-	33,809	-	-	-	33,809
		82,151	8,371	7,109	3	97,634
2014						
Bank borrowings	3.82 - 7.10	6,182	29	103	35	6,349
Finance lease payables	2.32 - 12.69	2,661	2,313	3,759	-	8,733
Trade and other payables	-	55,442	-	-	-	55,442
		64,285	2,342	3,862	35	70,524

The repayment terms of the bank borrowings and finance leases are disclosed in Notes 16 and 17 to the financial statements.

	Effective interest rate (%)	Less than 1 year RM'000	1 to 2 years RM'000	2 to 5 years RM'000	More than 5 years RM'000	Total RM'000
Company						
2015						
Trade and other payables	-	162,900	-	-	-	162,900

Trade and other payables	-	168,034	-	-	-	168,034
Financial guarantee contracts	-	-	44	48	-	92
		168,034	44	48	-	168,126

The disclosed amounts for the financial guarantee contracts represent the maximum amount of issued financial guarantees in the earliest time period for which the guarantees could be called upon in the contractual maturity analysis.

34.5 Equity price risks

The Group is exposed to equity price risks arising from equity investments classified as either available-for-sale financial assets or held-for-trading financial assets. Available-for-sale equity investments are held for strategic rather than trading purposes. The Group does not actively trade available-for-sale equity investments.

Further details of these equity investments can be found in Notes 7 and 12 to the financial statements.

Equity price sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to equity price risks at the balance sheet date.

The sensitivity analysis assumes an instantaneous 7% (2014: 7%) change in the equity prices from the balance sheet date, with all variables held constant.

				Increase/	(Decrease)			
	Gr	oup	Com	npany	Gro	oup	Com	ipany

Held-for-trading investments	8,394	1,176	8,394	1,176	8,394	1,176	8,394	1,176

34.6 Fair values of financial assets and financial liabilities

The fair values of financial assets and financial liabilities are determined as follows:

(i) Financial instruments that are not carried at fair value and whose carrying amounts are a reasonable approximation of fair value

The carrying amounts of financial assets and financial liabilities, such as trade and other receivables, trade and other payables and borrowings are reasonable approximation of fair value, either due to their short-term nature or that they are floating rate instruments that are re-priced to market interest rates on or near the end of the reporting period.

The carrying amounts of the bank borrowings and financial guarantees are reasonable approximations of fair values due to the insignificant impact of discounting, drawdown close to reporting and maturity date.

(ii) Available-for-sale financial assets

Quoted equity securities (Level 1): The fair value is determined by reference to the exhange quoted market bid prices at the close of business at the end of the reporting period.

(iii) Held-for-trading investments

Quoted equity securities and fixed income (Level 1): The fair value is determined by reference to the exchange quoted market bid prices at the close of business at the end of the reporting period.

Unit trust and bond (Level 2): The fair value is determined by reference to the net assets values which are based on observable market inputs.

34.6 Fair values of financial assets and financial liabilities (Continued)

(iv) Finance lease payables (Level 2)

The fair value is estimated by future contractual cash flows at market incremental borrowing rate for similar type of borrowing arrangement at the end of the reporting period.

Fair value hierarchy

The Group categories fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

- Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities that the Company can access at the measurement date,
- Level 2: Inputs other than quoted prices included within Level 1 that are determined using the other observable inputs such as quoted prices for similar asset/liability in active markets, quoted prices for identical or similar asset/liability in non-active markets or inputs other than quoted prices that are observable for the asset or liability,

Level 3: Unobservable inputs for the asset or liability.

There were no transfer between levels of the fair value hierarchy during the financial year.

There have been no changes in the valuation techniques of the various classes of financial instruments during the financial year.

34.6 Fair values of financial assets and financial liabilities (Continued)

Determination of fair value

The following tables set out the financial instruments carried at fair value and those not carried at fair value for which fair value is disclosed, together with their fair values and carrying amounts shown in the statements of financial position.

Trade and other payables	(202,006)	33,972	(168,034)
	66,410	-	66,410

34.8 Capital management policies and objectives

The Group and the Company manage their capital to ensure that the Group and the Company are able to continue as a going concern and maintain an optimal capital structure so as to maximise shareholders' values.

The capital structure of the Group consists of equity attributable to equity holders of the Company, comprising issued capital, reserves and accumulated profits as shown in the statements of financial position.

The Company may purchase its own shares from the market and the timing of these purchases depends on market prices. Primarily, such actions are intended to enhance the return to the Company's shareholders and to be used for issuing shares under the Group's share options scheme in the future. Buy and sell decisions are made on a specific transaction basis by the management. The Company does not have a defined buy-back plan.

The Group overall strategy remains unchanged since prior financial year.

Management constantly reviews the capital structure to ensure the Group and the Company are able to service all debt obligations (include principal repayment and interests) based on its operating cash flows.

The Group is not subject to externally imposed capital requirements for the financial years ended 30 September 2015 and 2014.

35. EVENTS SUBSEQUENT TO THE REPORTING DATE

- On 5 November 2015, the Company acquired 92,676,600 ordinary shares, representing 11.43% of the issued and paid-up share capital of Yamada Green Resources Limited, for an aggregate consideration of S\$10.5 million (approximately RM32.8 million) (excluding brokerage and stamp duties).
- (ii) On 11 November 2015, a wholly-owned subsidiary of the Company, PT Sentrafood Indonusa entered into a conditional sale and purchase agreement (the "Agreement") with PT AKS Karawang Timur for the disposal of the land located at Desa Anggadita, Kecamatan Klari, Kabupaten Karawang, Propinsi Jawa Barat, Indonesia (the "Land") and the factory building located on the Land (the "Factory Building") for a cash consideration of Rp50 billion (approximately RM16 million) on terms and conditions of the Agreement.
- (iii) On 17 November 2014, the Group acquired a shelf company incorporated on 5 October 2015, namely Dominade Marketing Sdn Bhd ("DMSB") as its wholly owned subsidiary by acquiring 2 new ordinary shares in the capital of DMSB at the purchase price of RM1 per share or a total subscription amount of RM2. DMSB's principal activity is wholesale and trading of food products.
- (iv) To comply with the minimum trading price requirement as required by the Monetary Authority of Singapore and the SGX-ST, the Company proposes to undertake a share consolidation of every five existing issued ordinary shares in the share capital. The proposed share consolidation is subject to the approval of the SGX-ST and the approval of shareholders by ordinary resolution at the annual general meeting of the Company to be convened.

36. AUTHORISATION OF FINANCIAL STATEMENTS

The consolidated financial statements of the Group, the statement of financial position and the statement of changes in equity of the Company for the financial year ended 30 September 2015 were authorised for issue by the Board of Directors of the Company on 8 December 2015.

Issued and fully paid-up capital	:	S\$46,710,654.955
Number of ordinary shares in issue	:	631,926,528
Class of shares	:	Ordinary share
Voting rights	:	One vote per share
Number of Treasury Shares held	:	1,210,000
Number of ordinary shares excluding Treasury Shares	:	630,716,528
Percentage of Treasury Shares	:	0.192%(1)

Note :

⁽¹⁾ Calculated based on 630,716,528 voting shares as at 7 December 2015.

VOTING RIGHTS

Shareholder's voting rights are set out in Article 65 of the Company's Articles of Association.

Every Member present in person or by proxy shall have one vote for every share which he holds or represents.

SHAREHOLDINGS HELD IN HANDS OF PUBLIC

Rule 723 of the Listing Manual of the Singapore Exchange Securities Trading Limited ("SGX-ST") requires that at least 10% of the equity securities (excluding preference shares and convertible equity securities) of a listed company in a class that is listed are at all times held by the public.

Based on the information provided and to the best knowledge of the Directors, approximately 40% of the issued ordinary shares of the Company are held in the hands of the public as at 7 December 2015 and therefore Rule 723 of the Listing Manual of the SGX-ST is complied with.

[See Explanatory Note (a)]

8. ORDINARY RESOLUTION - AUTHORITY TO GRANT OPTIONS AND ISSUE SHARES

"THAT pursuant to Section 161 of the Companies Act, Chapter 50, the Directors of the Company be and are hereby authorized and empowered to offer and grant options under the Envictus Employee Share Option Scheme ("the Scheme") and to allot and issue from time to time such number of shares in the capital of the Company as may be required to be issued pursuant to the exercise of options granted by the Company under the Scheme, whether during the subsistence of this authority or otherwise, the aggregate number of additional ordinary shares to be issued pursuant to the Scheme shall not exceed fifteen per centum (15%) of the total number of issued shares (excluding treasury shares) in the capital of the Company from time to time and that such authority shall, unless revoked or varied by the Company in a general meeting, continue in force until the conclusion of the next Annual General Meeting of the Company is required by law to be held, whichever is earlier." [See Explanatory Note (b)]

(Resolution 7)

NOTICE OF ANNUAL GENERAL MEETING

9. ORDINARY RESOLUTION - THE PROPOSED CONSOLIDATION OF EVERY FIVE (5) EXISTING ISSUED ORDINARY SHARES IN THE CAPITAL OF THE COMPANY ("EXISTING SHARES") HELD BY SHAREHOLDERS OF THE COMPANY AS AT A BOOKS CLOSURE DATE TO BE DETERMINED, INTO ONE (1) ORDINARY SHARE IN THE CAPITAL OF THE COMPANY, FRACTIONAL ENTITLEMENTS TO BE DISREGARDED ("PROPOSED SHARE CONSOLIDATION")

(Resolution 8)

"THAT pursuant to the Articles of Association of the Company:

- (a) the proposed consolidation of every five (5) Existing Shares held by the Shareholders as at the Books Closure Date into one (1) Consolidated Share with effect from a date to be fixed by the Directors of the Company in the manner set out in the Appendix dated 6 January 2016 (the "Appendix") be and is hereby approved;
- (b) any fraction of a Consolidated Share which may arise from the Proposed Share Consolidation pursuant to paragraph (a) above shall be disregarded, and all fractions of Consolidated Shares to which holders of the Existing Shares would otherwise be entitled to shall be dealt with in such manner as the Directors may, in their absolute discretion, deem fit in the interests of the Company, including (i) disregarding, or (ii) aggregating and selling the same and retaining the net proceeds for the benefit of the Company;
- (c) the Directors and each of them be hereby authorised to fix the Books Closure Date and the Effective Trading Date in their absolute discretion as they deem fit; and
- (d) the Directors and each of them be hereby authorised to do such acts and things (including without limitation, to execute all such documents as may be required, to approve any amendments, alterations or modifications to any documents, and to sign, file and/or submit any notices, forms and documents with or to the relevant authorities) as they and/or he may consider necessary or expedient to give effect to this resolution and the Proposed Share Consolidation."

BY ORDER OF THE BOARD

S Surenthiraraj @ S Suressh Kok Mor Keat Company Secretaries

Singapore 6 January 2016

Explanatory Notes on Special Business to be transacted

- (a) Ordinary Resolution 6, if passed, will enable the Directors to issue shares in the Company up to 50% of the total number of issued shares excluding treasury shares in the capital of the Company (in the case of issuance other than on a pro-rata basis to existing shareholders, such aggregate number of shares not to exceed 20% of the total number of issued shares excluding treasury shares in the capital of the Company) for such purposes as they consider to be in the interests of the Company.
- (b) Ordinary Resolution 7, if passed, will empower the Directors of the Company, from the date of the above Meeting until the next Annual General Meeting, to offer and grant options under the Employee Share Option Scheme ("the Scheme") and to allot and issue shares in the Company of up to a number not exceeding in total fifteen per cent. (15%) of the total number of issued shares excluding treasury shares of the Company from time to time pursuant to the exercise of the options under the Scheme.

NOTES:-

- 1. A member of the Company entitled to attend and vote at the Annual General Meeting is entitled to appoint not more than two proxies to attend and vote in his stead. A proxy need not be a member of the Company and where there are two proxies, the number of shares to be represented by each proxy must be stated.
- 2. If the appointor is a corporation, the instrument appointing a proxy must be executed under seal or the hand of its duly authorized officer or attorney.
- 3. The instrument appointing a proxy must be deposited at the office of the Company's Share Registrar at 50 Raffles Place, Singapore Land Tower #32-01, Singapore 048623 not less than forty-eight (48) hours before the time for holding the Annual General Meeting.

Company Registration No: 200313131Z (Incorporated in the Republic of Singapore)

Total Number of Shares held		
CDP Register		
Register of Members		

Notes:

- Please insert the total number of Shares held by you. If you have Shares entered against your name in the Depository Register (as defined in Section 130A of the Companies Act, Cap. 50 of Singapore), you should insert that number of shares. If you have Shares registered in your name in the Register of Members, you should insert that number of Shares. If you have Shares entered against your name in the Depository Register and Shares registered in your name in the Register of Members. You name in the Depository Register and Shares registered in your name in the Register of Members. You should insert that number of Shares you should insert the aggregate number of Shares entered against your name in the Depository Register and registered in your name in the Register of Members. If no number is inserted, the instrument appointing a proxy or proxies shall be deemed to relate to all the Shares held by you.
- 2. A member of the Company entitled to attend and vote at a meeting of the Company is entitled to appoint one or two proxies to attend and vote on his behalf save that no limit shall be imposed on the number of proxies for nominee or custodial service companies. Such proxy need not be a member of the Company.
- 3. Where a member appoints two proxies, the appointments shall be invalid unless he specifies the proportion of his shareholding (expressed as a percentage of the whole) to be represented by each proxy.
- 4. The instrument appointing a proxy or proxies must be deposited at the office of the Company's Share Registrar at 50 Raffles Place, Singapore Land Tower #32-01, Singapore 048623 not less than forty-eight (48) hours before the time appointed for the Annual General Meeting.
- 5. The instrument appointing a proxy or proxies must be under the hand of the appointor or his attorney duly authorised in writing. Where the instrument appointing a proxy or proxies is executed by a corporation, it must be executed either under its Seal or under the hand of an officer or attorney duly authorised.
- 6. Where an instrument appointing a proxy is signed on behalf of the appointor by an attorney, the letter or power of attorney (or other authority) or a duly certified copy thereof must (failing previous registration with the Company) be lodged with the instrument of proxy, failing which the instrument may be treated as invalid.
- 7. A corporation which is a member may by resolution of its directors or other governing body authorise such person as it thinks fit to act as its representative at the AGM, in accordance with Section 179 of the Companies Act, Cap.50.

General:

The Company shall be entitled to reject this instrument appointing a proxy or proxies if it is incomplete, improperly completed or illegible or where the true intentions of the appointor are not ascertainable from the instructions of the appointor specified in the instrument appointing a proxy or proxies. In addition, in the case of a member whose Shares are entered in the Depository Register, the Company may reject any instrument appointing a proxy or proxies lodged if the member, being the appointor, is not shown to have Shares entered against his name in the Depository Register as at forty-eight (48) hours before the time appointed for holding the Annual General Meeting, as certified by The Central Depository (Pte) Limited to the Company.

Personal data privacy:

By submitting an instrument appointing a proxy(ies) and/or representative(s) to attend, speak and vote at the Annual General Meeting and/or any adjournment thereof, a member of the Company (i) consents to the collection, use and disclosure of the member's personal data by the Company (or its agents) for the purpose of the processing and administration by the Company (or its agents) of proxies and representatives appointed for the Annual General Meeting (including any adjournment thereof) and the preparation and compilation of the attendance lists, minutes and other documents relating to the Annual General Meeting (including any adjournment thereof), and in order for the Company (or its agents) to comply with any applicable laws, listing rules, regulations and/or guidelines (collectively, the "Purposes"), (ii) warrants that where the member discloses the personal data of the member's proxy(ies) and/or representative(s) to the Company (or its agents), the member has obtained the prior consent of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Company (or its agents) of the personal data of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Company (or its agents) of the personal data of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Company (or its agents) of the personal data of such proxy(ies) and/or representative(s) for the collection, use and disclosure by the Company (or its agents) of the personal data of such proxy(ies) and/or representative(s) for the Purposes, and (iii) agrees that the member will indemnify the Company in respect of any penalties, liabilities, claims, demands, losses and damages as a result of the member's breach of warranty.
